

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Christopher Antonow  
DOCKET NO.: 21-36809.001-R-1  
PARCEL NO.: 14-29-408-042-0000

The parties of record before the Property Tax Appeal Board are Christopher Antonow, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$61,875  
**IMPR.:** \$46,500  
**TOTAL:** \$108,375

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of frame construction with 2,798 square feet of living area which is approximately 129 years old.<sup>1</sup> Features of the home include 2 full and 1 half-bath, a full unfinished basement, central air conditioning, and a 2.5-car garage. The property has a 4,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-06 property<sup>2</sup> under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity

<sup>1</sup> Some descriptive information not provided by the appellant was drawn from the evidence submitted by the board of review and not refuted by the appellant via a rebuttal filing.

<sup>2</sup> Two-or-more story residence, over 62 years of age, containing from 2,201 to 4,999 square feet of living area.

comparables located within the same assessment neighborhood code as the subject property. The comparables consist of class 2-06 dwellings of frame construction ranging in size from 2,629 to 2,914 square feet of living area and ranging in age from 125 to 139 years old. The comparables are described as each having 2 or 3 bathrooms with two comparables also each having a half-bath. Four comparables each have a full basement, two finished with an apartment; one comparable has a concrete slab foundation; four dwellings have central air conditioning; three homes have one or two fireplaces; and four comparables have a 1-car or a 2-car garage. The comparables have improvement assessments that range from \$41,120 to \$47,000 or from \$14.68 to \$17.88 per square foot of living area. The appellant also submitted a brief and the property information sheets from the Cook County Assessor's database for each comparable property. Based on this evidence, the appellant requested a reduction to the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$119,000. The subject property has an improvement assessment of \$57,125 or \$20.42 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the 'same block' as the subject and within the same assessment neighborhood code as the subject property. The comparables consist of 2-story and 3-story class 2-06 dwellings of frame or masonry construction ranging in size from 2,523 to 3,234 square feet of living area and ranging in age from 71 to 133 years old. Each comparable features 2 or 3 bathrooms, with comparables #2 and #4 also having an additional half-bath. Each comparable has a full or partial basement, three being finished with formal recreation rooms. Each comparable also has central air conditioning and a 2-car or a 2.5-car garage. Three dwellings each have one or two fireplaces. The comparables have improvement assessments ranging from \$60,125 to \$93,125 or from \$23.83 to \$29.98 per square foot of living area.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted a total of nine equity comparables in support of their positions before the Property Tax Appeal Board. The Board gives less weight to appellant's comparable #2 based on its concrete slab foundation, different from the subject's full basement. The Board also gave less weight to board of review comparable #3 based on its 3-story design and significantly larger dwelling size relative to the subject's 2-story dwelling. Finally, the Board gives less weight to board of review comparables #1, #2, and #4, along with appellant's comparables #3 and #4, based on having basements finished with either an apartment or a recreation room, dissimilar to the subject's unfinished basement.

The Board finds the best evidence of equity in assessment to be appellant's comparables #1 and #5 which have unfinished basements like the subject, and are also similar to the subject in location, design, age, dwellings size and some features. The two most similar comparables in the record have improvement assessments of \$42,775 and \$47,000 or \$14.68 and \$17.88 per square foot of living area, respectively. The subject's improvement assessment of \$57,125 or \$20.42 per square foot of living area is above the two most similar equity comparables in this record both in terms of overall improvement assessment and on a per square foot of living area basis.

Based on this record, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement is inequitably assessed and, therefore, a reduction in the subject's improvement assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
