

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Osmond Miller  
DOCKET NO.: 21-36824.001-R-1  
PARCEL NO.: 14-29-110-039-0000

The parties of record before the Property Tax Appeal Board are Osmond Miller, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$46,875  
**IMPR.:** \$103,125  
**TOTAL:** \$150,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of frame construction with 2,584 square feet of living area which is approximately 10 years old.<sup>1</sup> Features of the home include 3½ baths, a full basement finished with formal recreation room, central air conditioning, two fireplaces, and a 2-car garage. The property has a 3,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-78 property<sup>2</sup> under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity

<sup>2</sup> Two-or-more story residence, up to 62 years of age, containing from 2,001 to 3,800 square feet of living area.

comparables located in the same assessment neighborhood code as the subject property. The comparables consist of 2-story class 2-78 dwellings of frame or masonry construction ranging in size from 2,374 to 2,624 square feet of living area and ranging in age from approximately 20 to 31 years old. The comparables are described as having two or three full baths with four dwellings each having an additional ½ bath. The comparables each have a partial or a full basement finished with formal recreation room. Each comparable also has central air conditioning, one or two fireplaces, and a 3.5-car garage. The comparables have improvement assessments that range from \$60,125 to \$66,500 or from \$24.87 to \$25.55 per square foot of living area. The appellant also submitted a brief and the property information sheets from the Cook County Assessor's database for each comparable property. Based on this evidence, the appellant requested a reduction to the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$150,000. The subject property has an improvement assessment of \$103,125 or \$39.91 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within ¼ of a mile or within the "same block" as the subject, and within the same assessment neighborhood code as the subject property. The comparables consist of 2-story class 2-78 dwellings of frame construction ranging in size from 2,778 to 2,898 square feet of living area and are either 7 or 10 years old. Each comparable features either two or four full baths and one or two ½ baths. Each dwelling has a full basement finished with formal recreation room. Each comparable also has central air conditioning, two fireplaces, and a 2-car garage. The comparables have improvement assessments ranging from \$115,026 to \$121,125 or from \$40.24 to \$43.60 per square foot of living area.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables in support of their positions before the Property Tax Appeal Board. The Board finds that each of the comparables in this record is similar to the subject in location, design, class, and most characteristics. However, each of the appellant's comparables is older in age, and each board of review comparable has a larger dwelling size relative to the subject dwelling, suggesting that adjustments are necessary to the comparables in order to make them more equivalent to the subject. Nevertheless, the comparables contained in this record have improvement assessments ranging from \$60,125 to \$121,125 or from \$24.87 to \$43.60 per square foot of living area. The subject's improvement assessment of \$103,125 or \$39.91 per square foot of living area falls within the range established by all of the comparables in this record.

After considering adjustments to the best comparables for differences from the subject such as older ages and larger dwelling sizes, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and, therefore, a reduction in the subject's improvement assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
