

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Catherine Elliott
DOCKET NO.: 21-37690.001-R-1
PARCEL NO.: 14-05-403-028-0000

The parties of record before the Property Tax Appeal Board are Catherine Elliott, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,248
IMPR.: \$66,564
TOTAL: \$85,812

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story dwelling of masonry exterior construction with 3,381 square feet of living area. The dwelling is approximately 31 years old. Features include a slab foundation, central air conditioning, one fireplace and a 2-car garage. The property has a 2,406 square foot site and is located in Chicago, Lakeview Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables with the same assessment neighborhood code as the subject. Based on their property characteristics sheets, the comparables are class 2-95 properties improved with 3-story dwellings of masonry exterior construction ranging in size from 2,040 to 4,662 square feet of living area.

The dwellings are 25 or 28 years old. One comparable has a full basement. Each comparable has central air conditioning and a 2-car, a 3-car, or a 5-car garage. Two comparables each have one or two fireplaces. The comparables have improvement assessments that range from \$31,220 to \$65,730 or from \$14.10 to \$17.19 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$85,812. The subject property has an improvement assessment of \$66,564 or \$19.69 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject property, three of which are on the same street and block as the subject. The comparables are class 2-95 properties improved with 3-story dwellings of masonry exterior construction with either 3,247 or 3,381 square feet of living area. The dwellings are 22 or 31 years old. Three comparables have slab foundations and one comparable has a full basement with finished area. Each comparable has central air conditioning, one or four fireplaces and a 2-car or a 3-car garage. The comparables have improvement assessments of \$66,564 or \$76,160 or \$19.69 and \$23.46 per square foot of living area. Based on this evidence, the board of review requests confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine suggested equity comparables for the Board's consideration. The Board gives less weight to appellant's comparables #1, #3, #4 and #5 as well as board of review comparable #4 due to significant differences in dwelling size and/or have basements when compared to the subject.

The Board finds the best evidence of equity to be appellant's comparable #2 along with board of review comparables #1, #2 and #3 which overall are more similar to the subject in location, age, dwelling size and some features. These comparables have improvement assessments of \$48,322 and \$66,564 or \$14.29 and \$19.69 per square foot of living area. The subject's improvement assessment of \$66,564 or \$19.69 per square foot of living area is identical to the improvements assessments of three of the four best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
