

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jonathon & Lauren Schartz
DOCKET NO.: 21-38230.001-R-1
PARCEL NO.: 14-19-204-038-0000

The parties of record before the Property Tax Appeal Board are Jonathon & Lauren Schartz, the appellants, by attorney Spiro G. Zarkos, of Verros Berkshire, PC in Oakbrook Terrace, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$37,637
IMPR.: \$70,591
TOTAL: \$108,228

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,660 square feet of living area. The dwelling is approximately 18 years old. Features of the home include a full basement with a formal recreation room, 3½ bathrooms, central air conditioning, and three fireplaces. The property has a 3,011 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellants submitted information on four equity comparables located in the same neighborhood code as the subject and from 1.4 to 1.9-miles from the subject. The comparables consist of class 2-78 dwellings of masonry exterior construction. The dwellings range in age from 16 to 26 years old and range in size from 2,420 to

2,856 square feet of living area. Each comparable has a full basement; no information on basement finish, if any, was provided. The homes have from 2 to 4 bathrooms and central air conditioning. Three homes have either one or two fireplaces and three comparables have either a two-car or a three-car garage. The comparables have improvement assessments ranging from \$46,063 to \$56,786 or from \$19.03 to \$20.79 per square foot of living area.

Based on this evidence, the appellants requested a reduced improvement assessment of \$52,748 or \$19.83 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$108,228. The subject property has an improvement assessment of \$70,591 or \$26.54 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code and either the same tax block or within ¼ of a mile from the subject. The comparables consist of class 2-78 two-story dwellings of masonry exterior construction that are either 19 or 22 years old. The homes range in size from 2,670 to 2,774 square feet of living area. Each comparable has a full basement, with a formal recreation room, 3½ or 4½ bathrooms, central air conditioning, and two or three fireplaces. Three comparables have either a two-car or a three-car garage. The comparables have improvement assessments ranging from \$83,264 to \$89,225 or from \$30.77 to \$32.97 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellants' comparables, which are each more than a mile distant from the subject and lack information regarding basement finished area which is a feature of the subject.

The Board finds the best evidence of assessment equity in the record are the board of review comparables, which are each similar to the subject property in location, and more similar to the subject in age than the comparables presented by the appellant. In addition, each comparable has a full basement with a recreation room like the subject. Adjustments for differences in bathroom count, fireplace count and/or garage amenity when compared to the subject are necessary to make these comparables more equivalent to the subject. These comparables have improvement

assessments ranging from \$83,264 to \$89,225 or from \$30.77 to \$32.97 per square foot of living area. The subject's improvement assessment of \$70,591 or \$26.54 per square foot of living area falls below the range established by the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject property, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
