

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: BBH Properties, LLC
DOCKET NO.: 21-38832.001-R-1
PARCEL NO.: 24-24-306-011-0000

The parties of record before the Property Tax Appeal Board are BBH Properties, LLC, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,098
IMPR.: \$9,841
TOTAL: \$11,939

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame and masonry exterior construction with 1,130 square feet of living area. The dwelling is 67 years old. Features of the home include a concrete slab foundation, central air conditioning, and a 2-car garage. The property has a 4,662 square foot site and is located in Merriquette Park, Worth Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the same neighborhood code as the subject. The comparables consist of class 2-03 dwellings of frame and masonry exterior construction ranging in size from 1,286 to 1,522 square feet of living area. The dwellings are 68 or 69 years old. Each comparable has a

concrete slab foundation, central air conditioning, and a 2-car garage. The comparables have improvement assessments ranging from \$9,052 to \$10,736 or from \$6.43 to \$8.26 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$8,317 or \$7.36 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$11,939. The subject property has an improvement assessment of \$9,842 or \$8.71 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject and a ¼ of a mile from the subject property. The comparables consist of class 2-03, 1-story dwellings of frame and masonry exterior construction containing 1,130 square feet of living area. The dwellings are 67 or 68 years old. Each comparable has a concrete slab foundation and either a 1-car or a 2-car garage. Two comparable each have central air conditioning. The comparables have improvement assessments ranging from \$9,763 to \$10,874 or from \$8.64 to \$9.62 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the board of review comparables. These comparable are similar in location to the subject and are also identical to the subject in property characteristics, except two of the comparables lack central air conditioning, unlike the subject, and one comparable has a smaller garage capacity. These four comparables have improvement assessments ranging from \$9,763 to \$10,874 or from \$8.64 to \$9.62 per square foot of living area, respectively. The subject's improvement assessment of \$9,842 or \$8.71 per square foot of living area falls within the range established by the best comparables in this record. The Board gave less weight to the appellant's comparables which are less similar to the subject in dwelling size than the board of review comparables. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
