

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Adam J. & Allison Greene
DOCKET NO.: 21-38937.001-R-1
PARCEL NO.: 04-16-202-014-0000

The parties of record before the Property Tax Appeal Board are Adam J. & Allison Greene, the appellants, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,510
IMPR.: \$85,346
TOTAL: \$95,856

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame exterior construction with 4,137 square feet of living area. The home was built in 2017 and is approximately 4 years old. Features include a full basement with finished area, central air conditioning, one fireplace, and a 3-car garage. The property has a 10,010 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellants submitted information, including photographs and property information sheets, on three equity comparables that are located in the subject's assessment neighborhood code. The comparables are improved with class 2-08 dwellings of masonry exterior construction ranging in size from 3,887 to 4,449 square feet of living area. The

homes are either 1 or 7 years old. The comparables each have a full basement; however, the appellants did not address whether there was basement finish in the finished basement area section of the grid analysis. Each comparable has central air conditioning, one fireplace, and either a 3-car or a 4-car garage. The comparables have improvement assessments ranging from \$64,748 to \$82,573 or from \$15.59 to \$18.56 per square foot of living area. Based on this evidence, the appellants requested that the improvement assessment be reduced to \$72,191 or \$17.45 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$95,856. The subject property has an improvement assessment of \$85,345 or \$20.63 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-08 dwellings of frame or masonry exterior construction ranging in size from 3,819 to 4,092 square feet of living area. The homes range in age from 1 to 7 years old. Each comparable has a full basement, central air conditioning, either one or two fireplaces, and either a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$84,059 to \$97,719 or from \$22.01 to \$24.46 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board finds each of the parties' comparables to be similar to the subject in location, design, age, and dwelling size, and most features; although the Board lacks information on basement finish for the appellant's comparables. Nevertheless, these comparables have improvement assessments ranging from \$64,748 to \$97,719 or from \$15.59 to \$24.46 per square foot of living area. The subject's improvement assessment of \$85,345 or \$20.63 per square foot of living area falls within the range established by the comparables in this record. After considering appropriate adjustments to the comparables for differences from the subject, the Board finds the subject's improvement is supported and a reduction is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
