

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Stancik
DOCKET NO.: 21-39548.001-R-1
PARCEL NO.: 04-17-111-014-0000

The parties of record before the Property Tax Appeal Board are Michael Stancik, the appellant by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,787
IMPR.: \$33,237
TOTAL: \$49,024

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,602 square feet of living area. The dwelling is approximately 54 years old. Features of the home include a full basement with finished area, central air conditioning, one fireplace and a 2-car garage. The property has a 12,144 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-78 properties improved with 2-story dwellings of frame and masonry exterior construction ranging in size from 2,289 to 2,899 square feet of living area. The dwellings are 43

to 57 years old and have partial or full basements. Four comparables have central air conditioning. Each comparable has one fireplace and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$22,295 to \$29,054 or from \$8.40 to \$10.31 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$49,024. The subject property has an improvement assessment of \$33,237 or \$12.77 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-78 properties improved with 2-story dwellings of frame or frame and masonry exterior construction ranging in size from 2,468 to 2,602 square feet of living area. The homes are 53 or 54 years old and have partial or full basements with one having finished area. Three comparables have central air conditioning and two comparables each have one or two fireplaces. Each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$32,448 to \$37,804 or from \$12.80 to \$15.26 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine suggested comparables for the Board's consideration. The Board gives less weight to appellant's comparables #1, #2 and #3 which are less similar to the subject in age or dwelling size when compared to the subject.

The Board finds the best evidence of equity to be appellant's comparables #4 and #5 along with the board of review comparables which overall are more similar to the subject in location, age, dwelling size and features. These comparables have improvement assessments ranging from \$28,885 to \$37,804 or from \$10.24 to \$15.26 per square foot of living area. The subject's improvement assessment of \$33,237 or \$12.77 per square foot of living area is within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
