

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Deepa Paul
DOCKET NO.: 21-39556.001-R-1
PARCEL NO.: 04-17-303-025-0000

The parties of record before the Property Tax Appeal Board are Deepa Paul, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis, in Kenosha, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$38,040
IMPR.: \$17,564
TOTAL: \$55,604

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal. By correspondence dated June 18, 2025, the appellant waived the hearing request.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 3,092 square feet of living area. The dwelling is approximately 42 years old. Features of the home include a full unfinished basement, 3½ bathrooms, central air conditioning, two fireplaces,¹ and a two-car garage. The property has a 31,700 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code and from .12 to .29 of a mile from the

subject. Two of the comparables have the same “tax block” of 303 as the subject. The comparables consist of class 2-04 one-story dwellings of masonry exterior construction. The comparables range in age from 47 to 64 years old. The dwellings range in size from 2,640 to 3,371 square feet of living area. Each comparable has a partial basement. Three comparables have central air conditioning. Features include 2 to 3 bathrooms, a fireplace, and either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$8,408 to \$18,135 or from \$2.63 to \$5.42 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$11,595 or \$3.75 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$55,604. The subject property has an improvement assessment of \$17,564 or \$5.68 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables, as comparables #3 and #4 were duplicate presentations of one property. The comparables are located in the same neighborhood code and the same block or ¼ of a mile from the subject. One comparable has the same “tax block” of 303 as the subject. The comparables consist of class 2-04 one-story dwellings of frame and masonry exterior construction which are either 47 or 51 years old. The dwellings range in size from 3,066 to 3,226 square feet of living area. Each comparable has a partial basement, 2 to 3 bathrooms, a fireplace, and either a 1.5-car or a 2-car garage. Two homes each have central air conditioning. The comparables have improvement assessments ranging from \$19,752 to \$24,345 or from \$6.36 to \$7.80 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject’s assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant’s comparables #1 through #4 as well as board of review comparables #2 and #3, which differ in age and/or lack central air conditioning, when compared to the subject property and other comparables in the record.

The Board finds the best equity comparables in the record are appellant’s comparable #5 and board of review comparable #1, which are each 47 years old, similar in design, bracket the subject in dwelling size, have partial basements and central air conditioning along with one fireplace and either a 2-car or a 2.5-car garage. Adjustments to these comparables are necessary

for differences in dwelling size and/or garage capacity when compared to the subject in order to make them more equivalent to the subject. The best comparables have improvement assessments of \$18,135 and \$23,902 or of \$5.42 and \$7.80 per square foot of living area. The subject's improvement assessment of \$17,564 or \$5.68 per square foot of living area is below the best comparables in terms of overall improvement assessment but bracketed by the best comparables on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
