

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jill Kouri
DOCKET NO.: 21-40234.001-R-1
PARCEL NO.: 14-32-103-040-0000

The parties of record before the Property Tax Appeal Board are Jill Kouri, the appellant, by attorney Salvador Lopez of Robson & Lopez LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$40,000
IMPR.: \$76,697
TOTAL: \$116,697

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-family building of masonry exterior construction with 3,168 square feet of gross building area.¹ The building is approximately 133 years old. Features of the building include a partial basement that is finished with a formal recreation room, central air conditioning, five full bathrooms, one half bathroom and a 2-car garage. The property has a 3,200 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity

comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within .4 of a mile from the subject property and are improved with multi-family buildings of masonry exterior construction ranging in size from 4,477 to 8,050 square feet of gross building area. The buildings are from 124 to 144 years old. Each comparable has a full basement that is finished with a recreation room and either three, five or six full bathrooms. Two comparables have central air conditioning and three comparables each have either a 2-car, a 2.5-car or a 3-car garage. The comparables have improvement assessments that range from \$82,000 to \$147,125 or from \$15.93 to \$19.75 per square foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$58,006 or \$18.31 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$116,697. The subject property has an improvement assessment of \$76,697 or \$24.21 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within ¼ of a mile from the subject or within the subject's subarea, one of which is also located on the same street as the subject property. The comparables are improved with two-story multi-family buildings of masonry exterior construction ranging in size from 3,063 to 3,851 square feet of gross building area. The buildings are from 119 to 137 years old. The comparables each have a full basement, one of which is finished with an apartment. Each comparable has three or four full bathrooms and one comparable has an additional half bathroom. Two comparables each have three or four fireplaces and three comparables each have either a 1.5-car, a 2-car or a 3-car garage. The comparables have improvement assessments that range from \$82,000 to \$104,500 or from \$24.85 to \$28.38 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables, as well as board of review comparables #2 and #3 due to their substantially larger building sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1 and #4, which overall are most similar to the subject in location and building size. However, both buildings have varying degrees of similarity when compared to the subject in age and

features, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments of \$82,000 and \$86,937 or \$24.85 and \$28.38 per square foot of gross building area, respectively. The subject's improvement assessment of \$76,697 or \$24.21 per square foot of gross building area is less than the two best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
