

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Feldman
DOCKET NO.: 21-40521.001-R-1
PARCEL NO.: 14-19-314-008-0000

The parties of record before the Property Tax Appeal Board are Mark Feldman, the appellant, by attorney Abby L. Strauss of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$38,750
IMPR.: \$83,685
TOTAL: \$122,435

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,924 square feet of living area. The dwelling is approximately 19 years old. The home features a full basement finished with a formal recreation room,¹ two full bathrooms, one half bathroom, a fireplace and a two-car garage. The property has a 3,100 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code

¹ The board of review disclosed the subject dwelling has a formal recreation room in the basement, which was not refuted by the appellant.

as the subject. One comparable is located on the same street as the subject. The comparables are improved with dwellings of masonry exterior construction ranging in size from 2,802 to 3024 square feet of living area. The dwellings are from 15 to 22 years old. The comparables each have a full or partial basement. No data was provided by the appellant concerning finished basement area. Each comparable has central air conditioning, two or three full bathrooms and a two-car garage. Three comparables each have one or three fireplaces. The comparables have improvement assessments that range from \$65,250 to \$74,500 or from \$23.29 to \$24.64 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$70,878 or \$24.24 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$122,435. The subject property has an improvement assessment of \$83,685 or \$28.62 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block as the subject and two comparables are also on the same street as the subject property. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 2,674 to 2,787 square feet of living area. The dwellings are 14 or 17 years old. The comparables each have a full basement finished with a formal recreation room, central air conditioning, from two to four full bathrooms, one half bathroom and one or two fireplaces. Three comparables each have a two-car garage. The comparables have improvement assessments that range from \$80,767 to \$89,558 or from \$28.98 to \$32.25 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables, as the evidence provided by the appellant contained no data regarding basement finish of the comparable dwellings in order to allow the Property Tax Appeal Board to conduct a meaningful comparative analysis of the comparables to the subject property. The Board has given reduced weight to board of review comparable #1 due to its lack of a garage, a feature of the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #2, #3 and #4, which have basement finish, like the subject and are overall most similar to the

subject in location, dwelling size, design, age and many features. The comparables have improvement assessments that range from \$80,767 to \$89,558 or from \$28.98 to \$32.25 per square foot of living area. The subject's improvement assessment of \$83,685 or \$28.62 per square foot of living area falls within the range established by the best comparables in the record in terms of total improvement assessment and below the range on a per square foot basis. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
