

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steven Schneider
DOCKET NO.: 21-40590.001-R-1
PARCEL NO.: 14-30-105-020-0000

The parties of record before the Property Tax Appeal Board are Steven Schneider, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$31,250
IMPR.: \$84,750
TOTAL: \$116,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,963 square feet of living area. The dwelling is approximately 10 years old. Features of the home include a full basement with a formal recreation room, 3 bathrooms, central air conditioning, a fireplace, and a two-car garage. The property has a 3,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject. The comparables consist of class 2-78 dwellings of frame or masonry exterior construction. The dwellings range in age from 14 to 16 years old and range in size from 2,787 to 2,995 square feet of living area. Each

comparable has a full basement; no information on basement finish, if any, was provided. The homes have 2 or 3 bathrooms, central air conditioning, one to three fireplaces, and either a two-car or a three-car garage. The comparables have improvement assessments ranging from \$68,365 to \$73,380 or from \$24.50 to \$24.53 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$72,623 or \$24.51 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$116,000. The subject property has an improvement assessment of \$84,750 or \$28.60 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code and either in the same block or within ¼ of a mile from the subject. The comparables consist of class 2-78 two-story dwellings of frame exterior construction that are 7 or 13 years old. The homes range in size from 2,648 to 3,389 square feet of living area. Each comparable has a full basement finished with a formal recreation room, 2½ to 4½ bathrooms, one or two fireplaces, and either a two-car or a three-car garage. Three homes each have central air conditioning. The comparables have improvement assessments ranging from \$85,550 to \$107,906 or from \$29.79 to \$35.88 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparables #1, #2 and #3, which are each 5 or 6 years older than the subject dwelling that is 10 years old. The Board has given reduced weight to the board of review comparables #3 and #4, due to substantial differences in dwelling size of approximately 11% and 14%, respectively, when compared to the subject dwelling.

The Board finds the best evidence of assessment equity in the record are appellant's comparable #4 and board of review comparables #1 and #2, which are each more similar to the subject in location, age, design, dwelling size and some features. Adjustments for differences in bathroom count, fireplace count and/or garage capacity are necessary when compared to the subject to make these comparables more equivalent to the subject. These comparables have improvement

assessments ranging from \$68,365 to \$94,750 or from \$24.53 to \$35.39 per square foot of living area. The subject's improvement assessment of \$84,750 or \$28.60 per square foot of living area falls below the range established by the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject property, including the lack of finished basement data as to appellant's comparable #4. In conclusion, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
