

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: 3256 N. Clifton, LLC
DOCKET NO.: 21-40624.001-R-1
PARCEL NO.: 14-20-421-025-0000

The parties of record before the Property Tax Appeal Board are 3256 N. Clifton, LLC, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$46,500
IMPR.: \$51,555
TOTAL: \$98,055

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story multi-family building of masonry exterior construction with 3,856 square feet of building area. The building is approximately 118 years old. Features of the property include a full basement that is finished with an apartment, central air conditioning and a 2-car garage. The property has a 3,100 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables with the same assessment neighborhood code as the subject. The comparables are class 2-11 properties improved with multi-family buildings of masonry exterior construction ranging in size from 3,708 to 3,872 square feet of building area. The buildings are 100 to 126 years old and have

full basements. The appellant did not report if the basements have finished area. Three comparables each have a 2-car garage. The comparables have improvement assessments that range from \$24,500 to \$39,875 or from \$6.50 to \$10.31 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$98,055. The subject property has an improvement assessment of \$51,555 or \$13.37 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject property. Comparables #1, #2 and #3 are located on the same block, two of which are on the same street as the subject. The comparables are class 2-11 properties improved with 3-story multi-family buildings of masonry exterior construction ranging in size from 3,672 to 3,939 square feet of building area. The buildings are 123 to 128 years old and have full basements, one of which is finished with a recreation room. Two comparables each have central air conditioning and three fireplaces. Two comparables each have a 2-car garage. The comparables have improvement assessments that range from \$55,620 to \$80,125 or from \$14.51 to \$20.88 per square foot of building area. Based on this evidence, the board of review requests confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight suggested equity comparables for the Board's consideration which are similar to the subject in age and dwelling size with varying degrees of similarity in features. These comparables have improvement assessments ranging from \$24,500 to \$80,125 or from \$6.50 to \$20.88 per square foot of building area. The Board finds board of review comparables #1, #2 and #3 are most similar to the subject in location and have improvement assessments ranging from \$55,620 to \$78,241 or from \$14.51 to \$20.88 per square foot of building area. The subject's improvement assessment of \$51,555 or \$13.37 per square foot of building area falls below the range established by the comparables most similar in location. Based on this record and after considering adjustments to the comparables most proximate to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
