

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Techno Magnetic Media & Computer Supplies, Inc.
DOCKET NO.: 21-41438.001-R-1
PARCEL NO.: 15-09-106-002-0000

The parties of record before the Property Tax Appeal Board are Techno Magnetic Media & Computer Supplies, Inc., the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,387
IMPR.: \$11,405
TOTAL: \$13,792

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 960 square feet of living area. The dwelling is approximately 67 years old. Features of the home include a full unfinished basement and a 2-car garage. The property has a 4,340 square foot site and is located in Bellwood, Proviso Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-02 dwellings of masonry exterior construction ranging in size from 960 to 992 square feet of living area. The comparables are 63 to 95 years old and have full unfinished basements. Each comparable is reported to have central air conditioning and a 2-

car garage. The comparables have improvement assessments ranging from \$11,443 to \$11,843 or from \$11.70 to \$11.98 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$14,771. The subject property has an improvement assessment of \$12,384 or \$12.90 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code and same block or within a ¼ mile from the subject. The comparables are improved with class 2-02, 1-story dwellings of masonry exterior construction with 795 to 861 square feet of living area. The comparables are 68 to 70 years old and have partial or full basements, three of which are finished with a recreation room. Three comparables have central air conditioning. Each comparable has a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$11,853 to \$12,232 or from \$14.08 to \$15.31 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains eight equity comparables for the Board's consideration. The Board gives less weight to appellant's comparables #3 and #4 due to the difference in age from the subject. The Board gives less weight to the board of review comparables which are less similar to the subject in dwelling size and/or have finished basement area which is a feature the subject lacks.

The Board finds the best evidence of assessment equity to be appellant's comparables #1 and #2 which overall are more similar to the subject in location, age, dwelling size and features except each comparable has central air conditioning which the subject lacks, suggesting downward adjustments are necessary to make them more equivalent to the subject. The best comparables have improvement assessments of \$11,514 and \$11,443 or \$11.70 and \$11.92 per square foot of living area, respectively. The subject's improvement assessment of \$12,384 or \$12.90 per square foot of living area falls above the assessments of the two best comparables in the record and appears excessive. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant proved by clear and convincing evidence that the subject's improvement was inequitably assessed. Based on this record, the Board finds a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
