

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jeffrey Shapiro  
DOCKET NO.: 21-41458.001-R-1  
PARCEL NO.: 10-14-315-033-0000

The parties of record before the Property Tax Appeal Board are Jeffrey Shapiro, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,202  
**IMPR.:** \$33,810  
**TOTAL:** \$39,012

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 1,987 square feet of living area. The home is approximately 69 years old. Features include a full basement with finished area, central air conditioning, one fireplace, and a 1-car garage. The property has a 5,476 square foot site and is located in Evanston, Niles Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-05 dwellings of frame and masonry exterior construction ranging in size from 1,838 to 2,095 square feet of living area. The homes are either

69 or 71 years old. The comparables each have a full or partial basement; however, the appellant did not address whether the basements had finished area. Each comparable has central air conditioning, one fireplace, and either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$30,428 to \$34,380 or from \$16.26 to \$16.55 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$32,607 or \$16.41 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$39,012. The subject property has an improvement assessment of \$33,810 or \$17.02 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same assessment neighborhood code as the subject property. The comparables are improved with 2-story, class 2-05 dwellings of frame, masonry, or frame and masonry exterior construction ranging in size from 1,743 to 1,919 square feet of living area. The homes range in age from 70 to 73 years old. Each comparable has a full basement and one fireplace. Three comparables each have central air conditioning and three comparables each have a 1-car garage. The comparables have improvement assessments ranging from \$30,085 to \$36,524 or from \$17.25 to \$19.03 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds each of the parties' comparables to be similar to the subject in location, design/class code, age, and dwelling size with varying degrees of similarity in other features requiring adjustments for differences from the subject. The comparables have improvement assessments ranging from \$30,428 to \$36,524 or from \$16.26 to \$19.03 per square foot of living area. The subject's improvement assessment of \$33,810 or \$17.02 per square foot of living area falls within the range established by the comparables in this record. After considering appropriate adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
