

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Benjamin J. Audet
DOCKET NO.: 21-41492.001-R-1
PARCEL NO.: 14-33-305-035-0000

The parties of record before the Property Tax Appeal Board are Benjamin J. Audet, the appellant, by attorney Dora Cornelio of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$52,387
IMPR.: \$107,708
TOTAL: \$160,095

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,733 square feet of living area. The dwelling is approximately 143 years old. The home features a full basement finished with a recreation room,¹ three full bathrooms, one half bathroom, central air conditioning, a fireplace and a 2-car garage. The property has a 4,191 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code and property classification code

¹ The board of review disclosed the subject dwelling has a full basement that is finished with a recreation room and an additional half bathroom, which were not refuted by the appellant.

as the subject. According to the property characteristic printouts provided by the appellant, the comparables are improved with two-story or three-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,480 to 2,934 square feet of living area. The dwellings are from 127 to 135 years old. Four comparables each have a full basement that is either finished with a recreation room or an apartment and one comparable has a concrete slab foundation. Each comparable has central air conditioning, two or three full bathrooms, one or three fireplaces and a 2-car garage. Four comparables each have an additional half bathroom. The comparables have improvement assessments that range from \$60,800 to \$72,550 or from \$23.25 to \$27.53 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$67,259 or \$24.61 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$160,095. The subject property has an improvement assessment of \$107,708 or \$39.41 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject and are located approximately ¼ of a mile from the subject property. The comparables are improved with two-story dwellings of frame exterior construction ranging in size from 2,770 to 3,676 square feet of living area. The dwellings are from 133 to 143 years old. One comparable has a crawl space foundation and three comparables each have a full or partial basement, one of which is finished with a formal recreation room. Each comparable has central air conditioning, two or three full bathrooms and either a 2-car or a 2.5-car garage. Three comparables each have additional one or two half bathrooms and one comparable has a fireplace. The comparables have improvement assessments that range from \$116,756 to \$192,325 or from \$39.73 to \$52.32 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2 and #4 which differ from the subject in story height, foundation type and age, respectively. The Board has given reduced weight to board of review comparables #1, #2 and #4 due to their larger dwelling sizes and/or dissimilar crawl space foundation, when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #5, along with board of review comparable #3, which overall are more similar to the subject in location, dwelling size, story-height, foundation type, age and some features. These three comparables have improvement assessments ranging from \$69,375 to \$116,756 or from \$24.61 to \$42.15 per square foot of living area. The subject's improvement assessment of \$107,708 or \$39.41 per square foot of living area falls within the range established by the most similar comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
