The parties of record before the Property Tax Appeal Board are Chicago Title Land Tr. Co. Tr. #8002383951, the appellant, by attorney Noah J. Schmidt of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels improved with a three-story dwelling of masonry exterior construction with 6,368 square feet of living area. The dwelling is approximately 7 years old. The home features a full basement that is finished with a formal recreation room,¹ central air conditioning, six full bathrooms, one half-bathroom, two fireplaces and a 3.5-car garage. The property has a site that contains a combined total of 6,200 square feet of land area and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity

comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are improved with three-story dwellings of masonry exterior construction ranging in size from 5,874 to 6,582 square feet of living area. The dwellings are from 11 to 85 years old. According to the property characteristic printouts provided by the appellant, each dwelling has a full basement, four of which are finished with a recreation room. Each comparable has central air conditioning, three to five full bathrooms, one to three half-bathrooms, two to four fireplaces and from a 2-car to a 3.5-car garage. The comparables have improvement assessments that range from \$285,000 to \$353,654 or from \$47.85 to \$56.10 per square foot of living area.

The appellant's submission included a copy of the "Cook County Board of Review" final decision which disclosed the subject has a total assessment for the two parcels of \$448,442. According to the grid analysis and the addendum of the appellant's appeal petition, the two parcels have a combined total improvement assessment of \$370,942 or \$58.25 per square foot of living area.

Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$257,902 or \$40.50 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." The board of review's grid analysis disclosed the subject's two parcels have a combined total improvement assessment of \$370,942 or \$58.25 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables since board of review comparable #1 is one of the subject parcels. The comparables have the same assessment neighborhood code and property classification code as the subject. The comparables are located approximately ¼ of a mile from the subject property. The comparables are improved with three-story dwellings of masonry exterior construction ranging in size from 6,038 to 6,774 square feet of living area. The dwellings are from 2 to 138 years old. The comparables each have a full or partial basement, two of which are finished with a formal recreation room. Each comparable has central air conditioning, five or six full bathrooms, two half-bathrooms, three fireplaces and from a 1-car to a 3.5-car garage. The comparables have improvement assessments that range from \$374,264 to \$404,915 or from \$55.25 to \$67.06 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2, #3 and #4, as well as board of review comparable #4 which differ from the subject in age.

The Board finds the best evidence of assessment equity to be the appellant's comparable #5, along with board of review comparables #2 and #3, which overall are more similar to the subject in location, dwelling size, design and age. However, these three comparables have features with varying degrees of similarity when compared to the subject dwelling, suggesting adjustments would be required in order to make them more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$353,654 to \$404,915 or from \$56.10 to \$67.06 per square foot of living area. The subject's improvement assessment of \$370,942 or \$58.25 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
