

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Jankowiak
DOCKET NO.: 21-41553.001-R-1
PARCEL NO.: 13-12-402-025-0000

The parties of record before the Property Tax Appeal Board are Michael Jankowiak, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,600
IMPR.: \$39,534
TOTAL: \$46,134

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of frame exterior construction with 2,454 square feet of building area. The building is approximately 111 years old. Features of the home include a full basement with finished area and a 1.5-car garage. The property has a 2,750 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three comparables with the same assessment neighborhood code as the subject. The comparables are class 2-11 properties improved with multi-family buildings of frame or frame and masonry exterior construction ranging in size from 2,216 to 2,868 square feet of building area. The buildings are

86 to 131 years old. Each comparable has a full basement and central air conditioning. The appellant did not report if they have finished basement area. Two comparables each have a 2-car garage. The comparables have improvement assessments that range from \$36,400 to \$45,441 or from \$15.84 to \$16.43 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$49,905. The subject property has an improvement assessment of \$43,305 or \$17.65 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject property. The comparables are class 2-11 properties improved with 2-story multi-family buildings of frame exterior construction ranging in size from 1,849 to 2,944 square feet of building area. The buildings are 100 to 133 years old. Three comparables have full unfinished basements and one comparable has a slab foundation. Three comparables each have a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$37,400 to \$55,000 or from \$18.68 to \$26.43 per square foot of building area. Based on this evidence, the board of review requests confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains seven suggested equity comparables for the Board's consideration. The Board gives less weight to appellant's comparable #1 and the board of review comparables due to significant differences in building size when compared to the subject.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 and #3 which are more similar to the subject in building size with varying degrees of similarity in age and features. Adjustments to both comparables would have to be considered for differences in age, central air conditioning, finished basement area and garages to make them more equivalent to the subject. These comparables have improvement assessments of \$36,400 and \$39,696 or \$16.07 and \$16.43 per square foot of building area. The subject's improvement assessment of \$43,305 or \$17.65 per square foot of building area falls above the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
