

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gildasio De Oliveira
DOCKET NO.: 21-41685.001-R-1
PARCEL NO.: 14-33-308-057-0000

The parties of record before the Property Tax Appeal Board are Gildasio De Oliveira, the appellant, by attorney Ciarra Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$48,800
IMPR.: \$117,735
TOTAL: \$166,535

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,928 square feet of living area. The dwelling is approximately 39 years old. Features of the home include a basement with finished area, central air conditioning, two fireplaces and a 2-car garage. The property has an approximately 3,904 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story class 2-78 dwellings of masonry or frame and masonry exterior construction ranging in size from 2,804 to 3,071 square feet of living area. The homes

range in age from 0 to 130 years old.¹ Four comparables have a basement, three of which have finished area, and one comparable has a concrete slab foundation. Each dwelling has central air conditioning and one or two fireplaces. Three properties each have a 2-car garage. The comparables have improvement assessments ranging from \$50,274 to \$90,542 or from \$16.49 to \$31.34 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$64,035 or \$21.87 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$166,535. The subject property has an improvement assessment of \$117,735 or \$40.21 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story or 3-story class 2-78 dwellings of frame or masonry exterior construction ranging in size from 2,961 to 3,179 square feet of living area. The homes range in age from 10 to 38 years old. Three comparables have a basement with finished area and one comparable has a concrete slab foundation. Three dwellings have central air conditioning, three homes have one or two fireplaces and each property has a 1-car or a 2-car garage. Comparable #1 has other improvements which are not further described. The comparables have improvement assessments ranging from \$128,330 to \$196,586 or from \$41.22 to \$64.88 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to appellant comparables #1 and #4 along with board of review comparables #2, #3 and #4 which differ from the subject in age and/or foundation type. The Board also gives less weight to appellant comparable #2 which the property's Property Search Details printout disclosed has an age of 0 years and a building size of 0 square feet, calling into question the accuracy of the property characteristics presented in the appellant's grid analysis.

The Board finds the best evidence of assessment equity to be appellant comparables #3 and #5 as well as board of review comparable #1 which are more similar to the subject in location, age, design and dwelling size. Although one of these best properties lacks finished basement area and one comparable lacks a garage amenity, suggesting upward adjustments are needed to make

¹ Some property characteristics for the appellant's comparables were found in the Property Search Details for the respective properties, which were submitted by the appellant.

these properties more equivalent to the subject. These best comparables have improvement assessments ranging from \$61,375 to \$130,173 or from \$21.87 to \$41.22 per square foot of living area. The subject's improvement assessment of \$117,735 or \$40.21 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
