

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Van Camp
DOCKET NO.: 21-41691.001-R-1
PARCEL NO.: 17-22-302-068-0000

The parties of record before the Property Tax Appeal Board are David Van Camp, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$24,192
IMPR.: \$95,808
TOTAL: \$120,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story townhome of frame and masonry exterior construction with 3,440 square feet of living area. The dwelling is approximately 17 years old. Features of the home include a concrete slab foundation, central air conditioning, and a 2-car garage. The property has a 1,728 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables consist of 3-story class 2-95 dwellings of masonry exterior construction containing either 3,156 or 3,180 square feet of living area. The homes are either 16 or 19 years old. Each dwelling has central air

conditioning, a basement with finished area, and a 2-car garage. Three comparables each have a fireplace. The comparables have improvement assessments ranging from \$74,158 to \$81,424 or from \$23.50 to \$25.80 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$81,218 or \$23.61 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$120,000. The subject property has an improvement assessment of \$95,808 or \$27.85 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and within .25 of a mile of the subject. The comparables consist of 3-story class 2-95 dwellings of masonry or frame and masonry exterior construction containing either 3,440 or 3,527 square feet of living area. The homes are either 3 or 17 years old. Each dwelling has central air conditioning, a concrete slab foundation, and a 2-car or 2.5-car garage. One comparable has a fireplace. The comparables have improvement assessments ranging from \$90,880 to \$126,792 or from \$26.42 to \$35.95 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the comparables submitted by the appellant, each of which features a full finished basement in contrast to the subject's concrete slab foundation, and two of which differ from the subject in age. The Board also gives less weight to board of review comparable #4, which differs from the subject in age

The Board finds the best evidence of assessment equity to be board of review comparables #1 through #3, which are similar or identical to the subject in age, location, dwelling size, and features. These comparables have improvement assessments of \$90,880 or \$95,808 or \$26.42 or \$27.85 per square foot of living area. The subject's improvement assessment of \$95,808 or \$27.85 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
