

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jimmy Li
DOCKET NO.: 21-41763.001-R-1
PARCEL NO.: 17-32-106-016-0000

The parties of record before the Property Tax Appeal Board are Jimmy Li, the appellant, by attorney Ciarra Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,904
IMPR.: \$47,096
TOTAL: \$59,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,356 square feet of living area. The home is approximately 10 years old. Features include a full basement finished with a recreation room,¹ central air conditioning, and a 2-car garage. The property has a 2,976 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity

comparables with the same assessment neighborhood code as the subject.² The comparables are improved with 2-story or 3-story, class 2-78 dwellings of masonry exterior construction ranging in size from 2,145 to 2,516 square feet of living area. The homes range in age from 12 to 26 years old. Each comparable has a full basement, four of which are finished with either an apartment or a recreation room, central air conditioning and a 2-car garage. One comparable has one fireplace. The comparables have improvement assessments ranging from \$27,292 to \$33,463 or from \$12.53 to \$13.30 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$29,921 or \$12.70 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$59,000. The subject property has an improvement assessment of \$47,096 or \$19.99 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 2-story, class 2-78 dwellings of masonry exterior construction ranging in size from 2,004 to 2,356 square feet of living area. The homes range in age from 13 to 17 years old. The comparables each have a full basement, three of which are finished with a recreation room. Each comparable has central air conditioning and a 2-car garage. Three comparables each have one fireplace. The comparables have improvement assessments ranging from \$46,733 to \$50,096 or from \$21.26 to \$24.42 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparables #4 and #5 as well as board of review comparable #1 which are overall more similar to the subject in location, design, age, dwelling size, and most features. These comparables have improvement assessments ranging from \$27,292 to \$50,096 or from \$12.72 to \$21.26 per square foot of living area. The subject's improvement assessment of \$47,096 or \$19.99 per square foot of living area falls within the range established by the best comparables in this record. The parties' remaining comparables were accorded diminished weight due to disparities from the subject in design, age, or dwelling size. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement is supported and a reduction is not justified.

² The appellant submitted copies of property characteristic sheets from the Cook County Assessor's Office for the comparables from which descriptive information was verified, added, or corrected by the Board.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
