

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Six Unit Investment, LLC
DOCKET NO.: 21-41840.001-R-1
PARCEL NO.: 17-28-209-033-0000

The parties of record before the Property Tax Appeal Board are Six Unit Investment, LLC, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,000
IMPR.: \$70,000
TOTAL: \$81,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story, multi-family building of masonry exterior construction with 4,620 square feet of gross building area and is approximately 133 years old. Features include a full basement.¹ The property has a 2,500 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with the same assessment neighborhood code as the subject, along with property characteristics sheets that were used by the Board to verify, add, or correct some data in the grid analysis. The comparables are improved with 2-story or 3-story, class 2-11 multi-family

¹ The board of review disclosed the subject has an unfinished full basement, which was unrefuted by the appellant.

buildings of frame or masonry exterior construction ranging in size from 4,356 to 4,908 square feet of gross building area. The buildings are either 128 or 130 years old. Four comparables each have a full basement, three of which have finished area, and one comparable has a slab foundation. Three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$25,928 to \$33,811 or from \$5.28 to \$7.20 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$81,000. The subject property has an improvement assessment of \$70,000 or \$15.15 per square foot of gross building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 3-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 3,690 to 4,707 square feet of gross building area. The buildings are either 128 or 133 years old. Each comparable has a full or partial basement, one of which has finished area. Two comparables each have central air conditioning. One comparable has two fireplaces. Two comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$56,494 to \$89,250 or from \$15.31 to \$23.61 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The appellant's comparables as well as board of review comparables #3 and #4 are accorded diminished weight due to disparities from the subject in finished basement area, foundation type, and/or garage amenity.

The Board finds the best evidence of assessment equity to be board of review comparables #1 and #2 which are relatively similar to the subject in location, design/class, age, gross building size, and most features. The two best comparables have improvement assessments of \$80,000 and \$89,250 or \$17.00 and \$23.61 per square foot of gross building area, respectively. The subject's improvement assessment of \$70,000 or \$15.15 per square foot of gross building area falls below the two best comparables in this record. After considering adjustments to the two best comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
