

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Phil Elman
DOCKET NO.: 21-41883.001-R-1
PARCEL NO.: 10-28-415-027-0000

The parties of record before the Property Tax Appeal Board are Phil Elman, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,123
IMPR.: \$18,506
TOTAL: \$22,629

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,175 square feet of living area. The dwelling is approximately 65 years old. Features include a full basement with finished area, central air conditioning and a 2-car garage. The property has a 4,340 square foot site located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of masonry exterior construction ranging in size from 1,173 to 1,288 square feet of living area. The homes range in age from 65 to 69 years old. Each

comparable has a full basement; however, the appellant did not address whether the basements had finished area. Each comparable has central air conditioning and a 2-car garage. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$17,220 to \$19,210 or from \$14.63 to \$14.91 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$17,367 or \$14.78 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$22,629. The subject property has an improvement assessment of \$18,506 or \$15.75 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code as the subject. The comparables are improved with 1-story class 2-03 dwellings of masonry exterior construction ranging in size from 1,004 to 1,196 square feet of living area. The homes are either 65 or 67 years old. The comparables each have a full basement, three of which have finished area. Each comparable has central air conditioning and from a 1-car to a 2.5-car garage. One comparable has one fireplace. The comparables have improvement assessments ranging from \$16,979 to \$22,281 or from \$16.33 to \$21.21 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds each of the parties' comparables to be relatively similar to the subject in location, class code, age, dwelling size, and many features. These comparables have improvement assessments ranging from \$16,979 to \$22,281 or from \$14.63 to \$21.21 per square foot of living area. The subject's improvement assessment of \$18,506 or \$15.75 per square foot of living area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
