

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Harry Major
DOCKET NO.: 21-41900.001-R-1
PARCEL NO.: 13-01-230-076-0000

The parties of record before the Property Tax Appeal Board are Harry Major, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,907
IMPR.: \$31,096
TOTAL: \$43,003

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of frame exterior construction with 2,704 square feet of building area that is approximately 60 years old. Features of the subject include an unfinished basement, central air conditioning and a 2-car garage. The property has an approximately 3,968 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11 multi-family buildings of frame exterior construction ranging in size from 2,814 to 3,183 square feet of living area. The homes range in age from 94

to 98 years old. Each comparable has a basement, central air conditioning and from a 1-car to a 2.5-car garage. The comparables have improvement assessments ranging from \$30,840 to \$33,840 or from \$10.36 to \$10.96 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$29,041 or \$10.74 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$43,003. The subject property has an improvement assessment of \$31,096 or \$11.50 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,704 to 3,286 square feet of living area. The homes range in age from 50 to 65 years old. Two comparables have a basement, with one having finished area and two comparables have a concrete slab foundation. Two buildings have central air conditioning, and each building has either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$40,096 to \$44,090 or from \$13.42 to \$15.12 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board finds each of the appellant's comparables are all substantially older in age when compared to the subject while three of the board of review's comparables differ from the subject in foundation type or finished basement suggesting adjustments are needed to account for these differences with the subject. The comparables have improvement assessments ranging from \$30,840 to \$44,090 or from \$10.36 to \$15.12 per square foot of living area. The subject's improvement assessment of \$31,099 or \$11.50 per square foot of living area falls within the range established by the comparables in this record. After considering appropriate adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
