

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Leslie Goldstein
DOCKET NO.: 21-41996.001-R-1
PARCEL NO.: 13-15-402-013-0000

The parties of record before the Property Tax Appeal Board are Leslie Goldstein, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$24,960
IMPR.: \$57,040
TOTAL: \$82,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,892 square feet of living area. The dwelling is approximately 19 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 2-car garage. The property has a 7,800 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code as the subject. The comparables are class 2-78 properties that are improved with dwellings of frame exterior construction ranging in size from 2,102 to 3,627 square feet of living area. Three dwellings are from 15 to 33 years

old. No dwelling age was provided for comparable #4. Comparable #2 has a concrete slab foundation and three comparables each have a full or partial basement. However, the appellant did not address whether there was basement finish. Each comparable has central air conditioning and a 1½-car to a 2½-car garage. Two comparables each have one or two fireplaces. The comparables have improvement assessments that range from \$33,616 to \$62,803 or from \$15.87 to \$17.53 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$48,239 or \$16.68 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$82,000. The subject property has an improvement assessment of \$57,040 or \$19.72 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject. The comparables are class 2-78 properties that are improved with two-story dwellings of frame, masonry or stucco exterior construction ranging in size from 2,660 to 3,238 square feet of living area. The dwellings are from 4 to 18 years old. Each comparable has a full basement with finished area and central air conditioning. Three comparables each have from one to four fireplaces and three comparables each have a 2-car or a 2½-car garage. The comparables have improvement assessments that range from \$58,681 to \$84,998 or from \$20.09 to \$27.75 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2 and #3, as well as board of review comparable #4 due to differences from the subject dwelling in size or age. The Board has also given less weight to the appellant's comparable #4, as the appellant did not provide the dwelling age in order to allow the Board to make a meaningful comparative analysis of the comparable to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #3, which are similar to the subject in location, dwelling size, design, age and some features. However, each dwelling has basement finish, unlike the subject and board of review comparable #1 has three additional fireplaces, when compared to the subject, suggesting downward adjustments would be required to make the comparables more equivalent to the

subject. Conversely, board of review comparable #2 lacks a garage and board of review comparable #3 lacks a fireplace, suggesting upward adjustments for these features would be necessary. Nevertheless, these best comparables have improvement assessments ranging from \$58,681 to \$79,318 or from \$20.09 to \$25.92 per square foot of living area. The subject's improvement assessment of \$57,040 or \$19.72 per square foot of living area falls below the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
