

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stella Edoimioya
DOCKET NO.: 21-42809.001-R-1
PARCEL NO.: 14-06-205-046-0000

The parties of record before the Property Tax Appeal Board are Stella Edoimioya, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,636
IMPR.: \$15,364
TOTAL: \$22,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story townhome of masonry exterior construction with 1,280 square feet of living area. The dwelling is approximately 56 years old. Features include a full basement. The property has a 1,106 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on two grid analyses for five equity comparables located within the subject's assessment neighborhood and from 0.23 to 0.50 of a mile from the subject. For clarity in the record, the single comparable on the second grid was renumbered #5. The comparables are improved with 2-story, class 2-95 townhomes of masonry exterior construction ranging in size from 1,152 to 1,302 square feet of living area. The

dwelling range in age from 58 to 64 years old. Each comparable has a full basement, central air conditioning, and one or two fireplaces. The comparables have improvement assessments ranging from \$6,984 to \$9,256 or from \$5.56 to \$7.32 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$22,000. The subject property has an improvement assessment of \$15,364 or \$12.00 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the subject's assessment neighborhood code. Three comparables are located on same block and located along the same street as the subject and one comparable is ¼ of a mile from the subject. The comparables are improved with 2-story, class 2-95 townhomes of masonry exterior construction with each having 1,280 square feet of living area. The dwellings are either 56 or 60 years old. Each comparable has a full basement. One comparable has central air conditioning. The comparables have improvement assessments of either \$15,364 or \$16,240 and of either \$12.00 or \$12.69 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration with each having the same assessment neighborhood code, design, and classification as the subject. The Board gives less weight to the appellant's comparables and board of review comparable #4 which feature central air conditioning, unlike the subject, and/or are less similar to the subject in dwelling size than other comparables in this record.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2, and #3 which are identical or nearly identical to the subject in location, design/class, age, dwelling size, and other features. These comparables have improvement assessments of \$15,364 or \$12.00 per square foot of living area. The subject's improvement assessment of \$15,364 or \$12.00 per square foot of living area matches the improvement assessments of the three best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
