

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Timothy Le Cour DOCKET NO.: 21-43059.001-R-1 PARCEL NO.: 20-25-204-011-0000

The parties of record before the Property Tax Appeal Board are Timothy Le Cour, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds *No Change* in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,812 **IMPR.:** \$15,700 **TOTAL:** \$23,512

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,504 square feet of living area. The dwelling is approximately 107 years old. Features of the home include a full unfinished basement, 2½ bathrooms, a fireplace and a 1.5-car garage. The property has a 6,250 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject and from .08 to .36 of a mile from the subject. The comparables consist of two-story dwellings of masonry exterior construction that range in age from 92 to 102 years old. The homes range in size from 2,394 to

2,741 square feet of living area. Each comparable has a full unfinished basement, $2\frac{1}{2}$ bathrooms and either a 1.5 car or a 2-car garage. The comparables have improvement assessments ranging from \$5,700 to \$10,188 or from \$2.38 to \$3.90 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$8,388 or \$3.35 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$23,512. The subject property has an improvement assessment of \$15,700 or \$6.27 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and within ½ of a mile from the subject. The comparables consist of two-story dwellings of masonry or frame and masonry exterior construction that range in age from 105 to 108 years old. The homes range in size from 2,268 to 2,626 square feet of living area. Each comparable has a full unfinished basement, 2½ or 3 bathrooms and a two-car garage. Two homes each have central air conditioning and one has a fireplace. The comparables have improvement assessments ranging from \$17,406 to \$21,750 or from \$7.49 to \$8.86 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparable #4, which appears to be an outlier given the assessments of the other similar properties in the record. The Board has given reduced weight to board of review comparables #2 and #3, which each have central air conditioning, which is not a feature of the subject dwelling and additionally comparable #3 has three full bathrooms whereas the subject only has $2\frac{1}{2}$ bathrooms.

The Board finds the best evidence of assessment equity to be appellant's comparables #1, #2, #3 and #5 along with board of review comparables #1 and #4, which are similar to the subject in location, age, design, exterior construction, unfinished basement feature and bathroom count. When compared to the subject, these best comparables present variances in dwelling size from 2,394 to 2,741 square feet of living area which brackets the subject's dwelling size of 2,504 square feet of living area and several comparables necessitate downward adjustments to having a 2-car garage where the subject has a 1.5-car garage. These comparables have improvement assessments ranging from \$7,500 to \$21,750 or from \$2.74 to \$8.86 per square foot of living

area. The subject's improvement assessment of \$15,700 or \$6.27 per square foot of living area falls within the range established by the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis. Based on this record and after considering appropriate adjustments for differences in dwelling size, age and garage capacity when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
