

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael L. Shakman Revocable Trust
DOCKET NO.: 21-43429.001-R-1
PARCEL NO.: 20-14-202-077-0000

The parties of record before the Property Tax Appeal Board are Michael L. Shakman Revocable Trust, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$31,970
IMPR.: \$105,682
TOTAL: \$137,652

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco exterior construction with 3,315 square feet of living area. The dwelling is approximately 128 years old. Features of the home include a full basement with a recreation room,¹ two full and two half-bathrooms, and a detached one-car garage. The property has a 6,394 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject and ¼ of a mile from the

subject. The comparables consist of class 2-06 two-story dwellings of frame, stucco or masonry exterior construction that range in age from 109 to 134 years old. The homes range in size from 3,104 to 3,645 square feet of living area. Each comparable has a full unfinished basement, 3 or 4 full bathrooms and three homes each have a half-bath. Three dwellings have central air conditioning, and each dwelling has either one or three fireplaces. The comparables have improvement assessments ranging from \$47,000 to \$55,881 or from \$14.08 to \$18.00 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$53,338 or \$16.09 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$137,652. The subject property has an improvement assessment of \$105,682 or \$31.88 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and within ¼ of a mile from the subject. The comparables consist of two-story dwellings of masonry or frame exterior construction that range in age from 116 to 127 years old. The homes range in size from 2,556 to 2,974 square feet of living area. Each comparable has a full basement with a recreation room, two or three full bathrooms and three comparables have either one or two half-baths. Three dwellings have central air conditioning and three dwellings each have a fireplace. Comparable #1 has a two-car garage. The comparables have improvement assessments ranging from \$86,875 to \$104,750 or from \$32.58 to \$35.39 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant noted that board of review comparable #3 is smaller than the subject dwelling and that each of the board of review comparables differs from the subject in exterior construction type.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables, each of which lack finished basement area which is a feature of the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables, which are most similar to the subject in location, age, design, and/or finished basement. Various adjustments to these four comparables are necessary for differences in dwelling size, bathroom count, air conditioning amenity and/or garage feature in order to make them more similar to the

subject property. These comparables have improvement assessments ranging from \$86,875 to \$104,750 or from \$32.58 to \$35.39 per square foot of living area. The subject's improvement assessment of \$105,682 or \$31.88 per square foot of living area falls above the range established by the best comparables in this record in terms of overall improvement assessment and within the range on a per-square-foot of living area basis which the Board finds to be logical given that the subject is larger than each of these best comparables in the record.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments for differences in dwelling size, age and/or other features when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
