

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Brian D'Andrea
DOCKET NO.: 21-43824.001-R-1
PARCEL NO.: 20-33-104-027-0000

The parties of record before the Property Tax Appeal Board are Brian D'Andrea, the appellant, by attorney Dimitrios Trivizas, of Dimitrios P. Trivizas, Ltd. in Skokie; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,610
IMPR.: \$11,389
TOTAL: \$13,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story multi-family building of frame construction with 2,416 square feet of building area. The building is approximately 13 years old and has a slab foundation. The property has a 3,481 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on four comparable properties located within the same neighborhood code as the subject. The comparables are improved with 2-story, class 2-11 buildings of frame or masonry construction ranging in size from 2,390 to 2,456 square feet of building area. The buildings are 112 or 124 years old. Two comparables have full basements and two comparables have slab foundations.

Two comparables have either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$2,356 to \$8,158 or from \$.96 to \$3.41 per square foot of building area.

Based on this evidence the appellant requested that the subject's improvement assessment be reduced to \$7,461 or \$3.09 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$13,999. The subject property has an improvement assessment of \$11,389 or \$4.71 per square foot of building area.

In support of its contention of the correct assessment the board of review submitted information on four comparable properties that are located within the same neighborhood code as the subject. The comparables are improved with 3-story, class 2-11 buildings of frame or frame and masonry construction with 2,414 or 2,416 square feet of building area. The buildings range in age from 13 to 16 years old and have slab foundations. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$11,388 to \$12,185 or from \$4.71 to \$5.05 per square foot of building area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review's comparables #1, #2 and #3. These comparables are similar to the subject in location, building classification, foundation type, age, size and most features. The best comparables had improvement assessments of \$11,388 and \$11,477 or \$4.71 and \$4.75 per square foot of building area. The subject's improvement assessment of \$11,389 or \$4.71 per square foot of building area is supported by the best comparables in this record. The Board gave less weight to the appellant's comparables, due to their differences in story-height and age when compared to the subject. In addition, two of the appellant's comparables have basement foundations when compared to the subject. The Board also gave less weight to the board of review's comparable #4, due to its central air conditioning feature when compared to the subject. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
