

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Helene Brown
DOCKET NO.: 21-44845.001-R-1
PARCEL NO.: 24-04-404-024-0000

The parties of record before the Property Tax Appeal Board are Helene Brown, the appellant, by attorney John J. Piegore, of Sanchez, Daniels & Hoffman LLP, in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,125
IMPR.: \$16,948
TOTAL: \$21,073

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of masonry exterior construction with 1,339 square feet of living area and which is approximately 54 years old. Features include a partial finished basement, 1½ bathrooms, and a two-car garage. The property has a 6,875 square foot site and is located in Oak Lawn, Worth Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject. The comparables consist of class 2-34 multi-level dwellings of masonry exterior construction which range in age from 54 to 63 years old. The dwellings range in size from 1,311 to 1,609 square feet of living area and have

partial basements, 1½ or 2 bathrooms, and either a 2-car or a 2.5-car garage. Comparable #4 has central air conditioning. The comparables have improvement assessments ranging from \$14,578 to \$17,519 or from \$10.56 to \$11.12 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$14,582 or \$10.89 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$21,073. The subject property has an improvement assessment of \$16,948 or \$12.66 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and either the same block or within ¼ of a mile from the subject. The comparables consist of class 2-34 multi-level dwellings of masonry exterior construction which range in age from 53 to 55 years old. The dwellings range in size from 1,144 to 1,442 square feet of living area and have partial finished basements, 1½ or 2½ bathrooms, and a 1.5-car or a 2-car garage. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$16,564 to \$20,515 or from \$12.84 to \$14.48 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparables #1, #2 and #3 along with board of review comparable #1, due to significant differences in dwelling size when compared to the subject property.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4 along with board of review comparables #2, #3 and #4, which are each relatively similar to the subject in location, age, dwelling size, foundation type, and some other features. One comparable needs an adjustment for bathroom count when compared to the subject. Two comparables need downward adjustments for air conditioning which is not a feature of the subject. Two of these comparables need adjustments for garage capacity when compared to the subject. The best comparables have improvement assessments ranging from \$14,578 to \$20,515 or from \$11.12 to \$14.23 per square foot of living area. The subject's improvement assessment of \$16,948 or \$12.66 per square foot of living area is within the range of the best comparables both in terms of

overall improvement assessment and on a per-square-foot of living area basis. The Board finds the subject's assessment is logical after considering adjustments for differences.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
