

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sheryl Bruce
DOCKET NO.: 21-44858.001-R-1
PARCEL NO.: 18-05-127-006-0000

The parties of record before the Property Tax Appeal Board are Sheryl Bruce, the appellant, by attorney John J. Piegore of Sanchez, Daniels & Hoffman LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,170
IMPR.: \$99,770
TOTAL: \$108,940

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 4,364 square feet of living area. The dwelling is approximately 33 years old. The home features a full unfinished basement, central air conditioning, four full bathrooms, two half bathrooms, two fireplaces and a 3-car garage. The property has a 10,480 square foot site and is located in Western Springs, Lyons Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. According to the property characteristic printouts provided by the appellant, the comparables are improved with two-story dwellings of masonry exterior construction ranging in

size from 4,025 to 4,916 square feet of living area. The dwellings are from 16 to 25 years old. The comparables each have a full basement. No data was provided by the appellant concerning finished basement area. Each comparable has central air conditioning, two to four full bathrooms, one or two half bathrooms, two or three fireplaces and either a 2-car or a 2.5-car garage. The comparables have improvement assessments that range from \$86,700 to \$104,514 or from \$20.41 to \$21.54 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$93,608 or \$21.45 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$108,940. The subject property has an improvement assessment of \$99,770 or \$22.86 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are either located within the same block as the subject or approximately $\frac{1}{4}$ of a mile from the subject property. The comparables are improved with two-story dwellings of masonry, stucco or frame and masonry exterior construction ranging in size from 4,215 to 4,498 square feet of living area. The dwellings are from 4 to 25 years old. The comparables each have a full basement, one of which is finished with a formal recreation room. Each comparable has central air conditioning, three or four full bathrooms, one half-bathroom, one to four fireplaces and either a 2-car or a 3-car garage. The comparables have improvement assessments that range from \$98,877 to \$109,773 or from \$23.46 to \$24.40 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1 and #2, as well as board of review comparables #1, #2 and #4 which are less similar to the subject dwelling in age and/or size.

The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #4, along with board of review comparable #3, which have the same assessment neighborhood code and property classification code as the subject. These three comparables are overall most similar to the subject in dwelling size, design and age. However, all three dwellings have a fewer number of bathrooms and a smaller garage capacity, when compared to the subject, suggesting upward adjustments would be required in order to make the comparables more

equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$86,700 to \$98,877 or from \$21.45 to \$23.46 per square foot of living area. The subject's improvement assessment of \$99,770 or \$22.86 per square foot of living area falls above the range established by the best comparables in the record in terms of total improvement assessment but within the range on a per square foot basis. The subject's higher total improvement assessment appears to be logical given the subject's superior features. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
