

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mary Offerman
DOCKET NO.: 21-46461.001-R-1
PARCEL NO.: 19-17-103-049-0000

The parties of record before the Property Tax Appeal Board are Mary Offerman, the appellant, by Amy C. Floyd, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,260
IMPR.: \$17,740
TOTAL: \$23,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,198 square feet of living area. The dwelling is approximately 64 years old. Features of the home include a basement with finished area, central air conditioning and a 2-car garage.¹ The property has an approximately 4,208 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The

¹ The Board finds the best description of the subject was found in the grid analysis submitted by the board of review which was not refuted by the appellant.

comparables are improved with class 2-03 dwellings² of frame, masonry or frame and masonry exterior construction ranging in size from 1,123 to 1,643 square feet of living area. The homes range in age from 64 to 68 years old. One comparable has a basement and three comparables each have a crawl space foundation. The appellant failed to disclose if comparable #1 has a finished or unfinished basement. Two dwellings have central air conditioning. The comparables have improvement assessments ranging from \$10,275 to \$16,141 or from \$9.15 to \$9.82 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$11,681 or \$9.75 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$23,000. The subject property has an improvement assessment of \$17,740 or \$14.81 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located on the same block and in the same assessment neighborhood code as the subject property. The comparables are improved with 1-story class 2-03 dwellings of masonry exterior construction ranging in size from 1,144 to 1,259 square feet of living area. The homes range in age from 64 to 67 years old. Each comparable has a basement, with two having finished area. Each dwelling also has a 2-car garage. The comparables have improvement assessments ranging from \$17,312 to \$19,312 or from \$15.13 to \$16.73 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to each of the appellant's comparables which differ from the subject in foundation type and/or lack a garage amenity. The Board gives less weight to board of review comparables #1 and #4 which have an unfinished basement in contrast to the subject's finished basement.

The Board finds the best evidence of assessment equity to be board of review comparables #2 and #3 which are more similar to the subject in location, age, design, dwelling size and most features. Although these properties lack central air condition, a feature of the subject, suggesting an upward adjustment is needed to make these properties more equivalent to the subject. These two comparables each have an improvement assessment of \$19,312 or \$15.34 and \$16.73 per square foot of living area. The subject's improvement assessment of \$17,740 or \$14.81 per

² The appellant's grid analysis reports the comparables are either 1-story or 4 or more story in design. However, the appellant's Exhibit 1 further identifies these properties as class 2-03 which appears to be appropriate given exterior photographs of the comparable properties submitted by the appellant.

square foot of living area falls below the two best comparables in this record, which suggests the subject may be under assessed. However, after considering appropriate adjustments to the comparables for differences from the subject and given the board of review did not request an increase in the subject's improvement assessment, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
