

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bill Thanoukos
DOCKET NO.: 21-46524.001-C-1
PARCEL NO.: 10-14-119-046-0000

The parties of record before the Property Tax Appeal Board are Bill Thanoukos, the appellant(s), by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$189,426
IMPR.: \$85,574
TOTAL: \$275,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 31,571 square foot parcel of land improved with a 62-year-old, one-story, masonry, multi-tenant, commercial building containing 15,113 square feet of building area. The property is located in Evanston, Niles Township, Cook County and is classified as a class 5 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted an appraisal which estimated the subject's market value as of January 1, 2019, of \$1,100,000. The appraiser inspected the subject on January 27, 2021. The appraiser utilized the income and sales comparison approaches to value to estimate the subject's market value. The appraiser opined the highest and best use of the property as improved is retail/commercial.

Under the income approach, the appraiser analyzed six commercial comparables to arrive at an average rental rate of \$22.54 per square foot for the occupied space and \$22.00 per square foot for the vacant space for a potential gross income of \$258,746. The appraiser applied a vacancy and collection rate of 10% to arrive at an effective gross income of \$232,871. Expenses were estimated at \$69,353 to arrive at a net operating income of \$163,518.

In determining a capitalization rate (cap rate), the appraiser reviewed surveys and utilized the band of investment method to estimate a cap rate of 9%. This rate was loaded to 14.8% to arrive at a value for the subject under the income approach of \$1,105,000, rounded.

Under the sales comparison approach, the appraiser analyzed nine sales in arriving at the estimate of value. The sales properties are described as one-story, masonry, multi-tenant, commercial buildings ranging in size from 7,540 to 18,725 square feet of building area. They sold for prices ranging from \$37.04 to \$80.20 per square foot. After making adjustments for pertinent factors, the appraiser opined a value for the subject under the sales comparison approach of \$72.500 per square foot or \$1,100,000, rounded.

In reconciling the approaches, the appraiser gave equal weight to both approaches to estimate a value for the subject as of January 1, 2019 of \$1,100,000.

The board of review submitted its "Board of Review Notes on Appeal." Disclosing the subject's assessment of \$320,205 which reflects a market value of \$1,280,820 using the Cook County Real Estate Classification Ordinance level of assessment for class 5 property of 25%. The board of review did not submit any other evidence.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The appellant's appraiser utilized the income and sales comparison approaches to value in determining the subject's market value. The current assessment reflects a market value above this value. The Board finds this appraisal to be persuasive because the appraisal discloses that the appraiser inspected the subject, reviewed the property's history, and used similar properties in the income and sales comparison approaches. Therefore, the Board finds the subject property's market value of \$1,100,000 as of the assessment date at issue. Since market value has been established the Cook County Real Estate Classification Ordinance level of assessment for class 5 property of 25% shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
