

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Matthew Perone
DOCKET NO.: 21-47117.001-R-1
PARCEL NO.: 17-04-203-045-0000

The parties of record before the Property Tax Appeal Board are Matthew Perone, the appellant(s), by attorney Nora Devine, of The Devine Law Group, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$25,900
IMPR.: \$214,100
TOTAL: \$240,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of an approximately 16-year-old, three-story residential dwelling of masonry construction with 4,084 square feet of living area. Features of the home include central air conditioning, a basement, a fireplace, and a two-car garage. The property has a 2,072 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three suggested equity comparable properties with varying degrees of similarities to the subject. These comparables are described as masonry construction dwellings. They range in age from one to 24 years; in size from 3,859 to 4,569 square feet of living area; and an improvement assessment from \$19.18 to \$48.16 per square foot

of living area. These properties have full basements and two- or 2.5-car garages. The properties are located within a .34-mile radius of the subject property. The appellant requested the subject's total assessment be reduced to \$164,511.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$240,000. The subject property has an improvement assessment of \$214,100 or \$52.42 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparable properties with varying degrees of similarities to the subject. These comparables are described as masonry construction, three-story dwellings. They range in age from one to 10 years; in size from 4,217 to 4,977 square feet of living area; and an improvement assessment ranging from \$54.81 to \$74.04 per square foot of living area. These properties have partial or full basements. The properties are located within a 1/4-mile radius of the subject property. The board of review requested that the assessment be confirmed.

In rebuttal, the appellant submitted the Multiple Listing Service (MLS) data sheets for three of the board of review's suggested comparables and pointed out characteristic differences to the subject. The appellant reaffirmed its position that the 2021 assessed value for the subject property is excessive and that the total assessment should be reduced.

On November 20, 2025, prior to the scheduled hearing date, the parties agreed to waive their right to a hearing and for the Board to render its decision on the evidence.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const., art. IX, § 4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds that the subject property has four full bathrooms and two half bathrooms per the appellant's evidence. The Board finds that the appellant failed to submit any evidence of the condition of the subject property to support its representations of characteristic differences the

newer construction properties in the board of review's suggested comparables submitted in rebuttal for the Board to consider. Therefore, the Board finds the best evidence of assessment equity is the board of review's suggested comparables #2 and #3 and the appellant's comparables #1 and #3. The dwellings on these comparable are similar to the subject dwelling in age, construction, location, amenities and living area size.

The comparables had improvement assessments that ranged from \$19.18 to \$63.75 per square foot of living area. The subject's improvement assessment of \$52.42 per square foot of living area falls within the assessment per square feet of the best comparable in this record. After considering all the best comparable properties submitted by the parties with emphasis on those properties that are proximate in location, similar in size of living area, and with similar features to the subject and after further considering adjustments to the best comparable properties for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
