

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dave Waddick
DOCKET NO.: 21-47820.001-R-1
PARCEL NO.: 24-27-308-010-0000

The parties of record before the Property Tax Appeal Board are Dave Waddick, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,087
IMPR.: \$12,857
TOTAL: \$15,944

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of masonry exterior construction with 1,109 square feet of living area. The dwelling is approximately 59 years old. Features of the home include a basement with finished area and a 2-car garage. The property has a 6,500 square foot site and is located in Alsip, Worth Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three comparables that have the same assessment neighborhood code as the subject property. The comparables are improved with class 2-34, multi-level dwellings of masonry exterior construction with 1,268 square feet of living area. The dwellings are either 50 or 52 years old. Each comparable has a basement and a 2-car garage. One comparable has an unfinished attic and two comparables each

have central air conditioning. The comparables have improvement assessments ranging from \$13,367 to \$13,698 or from \$10.54 to \$10.80 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$11,877 or \$10.71 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,944. The subject property has an improvement assessment of \$12,857 or \$11.59 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables that have the same assessment neighborhood code as the subject. The comparables are improved with class 2-34, multi-level dwellings of masonry exterior construction with each having 1,109 square feet of living area. The dwellings range in age from 57 to 59 years old. Each comparable has a basement with finished area and either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$12,857 to \$13,225 or from \$11.59 to \$11.93 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the board of review comparables which are identical or nearly identical to the subject in design, age, dwelling size, and most features. These four comparables have improvement assessments from \$12,857 to \$13,225 or from \$11.59 to \$11.93 per square foot of living area. The subject's improvement assessment of \$12,857 or \$11.59 per square foot of living area matches the board of review comparables #1 and #2 which set the lower end of the range established by the best comparables in this record. The Board gives less weight to the appellant's comparables which differ from the subject in dwelling size, have a fireplace, and/or have central air conditioning, unlike the subject. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
