

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George & Maria Salti
DOCKET NO.: 21-47834.001-R-1
PARCEL NO.: 18-07-105-022-0000

The parties of record before the Property Tax Appeal Board are George & Maria Salti, the appellants, by attorney Brian P. Liston of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$23,257
IMPR.: \$179,804
TOTAL: \$203,061

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 6,835 square feet of living area.¹ The dwelling is approximately 15 years old. The home features a partial basement that is finished with a formal recreation room,² central air conditioning, three full bathrooms, one half bathroom, two fireplaces and a 2-car garage. The property has a 19,794 square foot site and is located in Hinsdale, Lyons Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

¹ According to the property characteristic printout provided by the appellants, the subject dwelling is approximately 15 years old and has 6,835 square feet of living area.

² The board of review disclosed the subject's basement is finished with a formal recreation room, which was not refuted by the appellants.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellants submitted information on three equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located approximately .1 or .8 of a mile from the subject property. According to the property characteristic printout provided by the appellants, the comparables are improved with two-story dwellings of masonry exterior construction that range in size from 5,930 to 6,282 square feet of living area. The dwellings are from 17 to 22 years old. The comparables each have a full basement. No data was provided by the appellants concerning finished basement area. Each comparable has central air conditioning, four or six full bathrooms, from one to three half bathrooms, two or four fireplaces and either a 3-car, a 3.5-car or a 4-car garage. The comparables have improvement assessments that range from \$132,775 to \$141,495 or \$21.14 and \$23.50 per square foot of living area. Based on this evidence, the appellants requested the subject's improvement assessment be reduced to \$155,223 or \$22.71 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$203,061. The subject property has an improvement assessment of \$179,804 or \$26.31 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables that have the same assessment neighborhood code and property classification code as the subject. The board of review's comparable #4 is a duplicate of board of review comparable #3. The comparables are located within the same block as the subject or approximately ¼ of a mile from the subject property, one of which is also on the same street as the subject. The comparables are improved with two-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 6,109 to 6,860 square feet of living area. The dwellings are 7 or 13 years old. The comparables each have a full basement that is finished with a formal recreation room, central air conditioning, four or six full bathrooms, two or three half bathrooms, two or three fireplaces and either a 3-car or a 3.5-car garage. The comparables have improvement assessments that range from \$191,151 to \$215,061 or from \$29.00 to \$31.35 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayers contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six comparable properties for the Board's consideration. The Board has given less weight to the appellants' comparables, as well as board of review comparable #1 due to their smaller dwelling sizes, when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #2 and #3, which are overall more similar to the subject in location, dwelling size, design, age and some features. The comparables have improvement assessments of \$193,865 and \$215,061 or \$29.00 and \$31.35 per square foot of living area, respectively. The subject's improvement assessment of \$179,804 or \$26.31 per square foot of living area is less than the two best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
