

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tomasz Iwaniec
DOCKET NO.: 21-48303.001-R-1
PARCEL NO.: 19-11-107-037-0000

The parties of record before the Property Tax Appeal Board are Tomasz Iwaniec, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,750
IMPR.: \$22,685
TOTAL: \$26,435

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of frame exterior construction with 2,246 square feet of building area. The building is 94 years old. Features include a concrete slab foundation and a 1-car garage. The property has a 3,750 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with regard to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five comparables located within the subject's assessment neighborhood. The comparables consist of 2-story or 1.5 to 1.9-story class 2-11 multi-family buildings of frame or frame and masonry exterior construction ranging in size from 2,009 to 2,453 square feet of building area. The buildings are 96 to 110 years old. Three comparables have a partial or a full basement with an apartment, and

two comparables are reported as having “None” for the basement amenity. Each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$16,220 to \$21,200 or from \$7.24 to \$8.79 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject’s assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$26,435. The subject property has an improvement assessment of \$22,685 or \$10.10 per square foot of building area.

In support of its contention of the correct assessment the board of review submitted information on four comparables located within the subject’s assessment neighborhood. The comparables consist of 2-story class 2-11 multi-family buildings of frame or masonry exterior construction ranging in size from 1,890 to 2,592 square feet of building area. The buildings are 92 or 95 years old. Two comparables each have a full basement with one having finished area, and two comparables each have a concrete slab foundation. One comparable has central air conditioning, and each comparable has either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$23,160 to \$26,850 or from \$10.36 to \$12.25 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject’s assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables for the Board’s consideration. The Board gives less weight to the appellant’s comparables #2, #3, and #5, along with board of review comparables #1 and #2 which have a basement foundation, unlike the subject.

The Board finds the best evidence of assessment equity to be the parties’ remaining comparables that are similar to the subject in location, building size, age, foundation type and other features. These four comparables have improvement assessments that range from \$16,220 to \$24,250 or from \$8.07 to \$12.25 per square foot of building area. The subject's improvement assessment of \$22,685 or \$10.10 per square foot of building area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
