

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Sanborne
DOCKET NO.: 21-48326.001-R-1
PARCEL NO.: 18-03-228-004-0000

The parties of record before the Property Tax Appeal Board are David Sanborne, the appellant by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,968
IMPR.: \$18,685
TOTAL: \$20,653

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 2-story multi-family building of frame exterior construction with 1,496 square feet of building area. The building is approximately 124 years old. Features of the building include a basement and a 2-car garage. The property has a 3,150 square foot site and is located in Brookfield, Lyons Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables with the same assessment neighborhood code as the subject. The comparables consist of 1.5-story or 2-story, class 2-11 buildings of wood exterior construction ranging in size from 1,426 to 1,700 square feet of building area. The buildings are from 106 to 129 years old. Each

comparable has a basement, one fireplace, and from a 1-car to a 2.5-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$12,555 to \$17,154 or from \$8.15 to \$10.72 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$14,167 or \$9.47 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$20,653. The subject property has an improvement assessment of \$18,685 or \$12.49 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four comparables with the same assessment neighborhood code as the subject. The comparables consist of 1-story or 2-story, class 2-11 multi-family buildings of frame or masonry exterior construction ranging in size from 1,404 to 1,587 square feet of building area. The buildings are from 97 to 119 years old. Each comparable has a basement with one having finished area. Three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$18,869 to \$23,337 or from \$12.58 to \$16.62 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #5 as well as board of review comparable 1 which are overall more similar to the subject in location, design, age, dwelling size, and other features. These three comparables have improvement assessments ranging from \$15,260 to \$21,083 or from \$10.52 to \$13.87 per square foot of building area. The subject's improvement assessment of \$18,685 or \$12.49 per square foot of building area falls within the range established by the best comparables in the record. The Board gives less weight to the parties' remaining comparables due to differences in design, building size, and/or lack of a garage when compared to the subject. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
