

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Schifano
DOCKET NO.: 21-48726.001-R-1
PARCEL NO.: 20-04-124-017-0000

The parties of record before the Property Tax Appeal Board are Michael Schifano, the appellant, by Mary Kate Gorman, Attorney at Law in Tinley Park; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,125
IMPR.: \$23,690
TOTAL: \$26,815

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of masonry exterior construction with 2,214 square feet of building area. The building is 120 years old. Features include an unfinished basement and a 2-car garage. The property has a 3,125 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four comparables located within the same assessment neighborhood code as the subject and from 0.18 to 0.68 of a mile from the subject. The comparables consist of class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,162 to 2,392 square feet of building area. The comparables are 120 to 140 years old and have basements. No data was provided concerning the finished basement area, if any. Three comparables each have a 2-car or a 2.5-car garage. The

comparables have improvement assessments that range from \$20,312 to \$23,313 or from \$9.39 to \$9.75 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$21,055 or \$9.51 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$26,815. The subject property has an improvement assessment of \$23,690 or \$10.70 per square foot of building area.

In support of its contention of the correct assessment the board of review submitted information on four comparables located within the same assessment neighborhood code and the same block as the subject. The comparables consist of class 2-11 multi-family buildings of masonry exterior construction with 2,214 square feet of building area. The comparables are each 120 years old and have basements, two of which have finished area. One comparable has two fireplaces, and three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$26,875 to \$29,875 or from \$12.14 to \$13.49 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are less similar to the subject in age and building size than the board of review comparables.

The Board finds the best evidence of assessment equity to be the board of review comparables that are identical or relatively identical to the subject in location, design, age, building size and some features. These four comparables have improvement assessments ranging from \$26,875 to \$29,875 or from \$12.14 to \$13.49 per square foot of building area. The subject's improvement assessment of \$23,690 or \$10.70 per square foot of building area falls below the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
