

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joanne Plasky
DOCKET NO.: 21-48738.001-R-1
PARCEL NO.: 31-06-216-101-0000

The parties of record before the Property Tax Appeal Board are Joanne Plasky, the appellant, by attorney Andreas Mamalakis of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,689
IMPR.: \$16,394
TOTAL: \$18,083

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story townhome of frame and masonry exterior construction with 1,603 square feet of living area. The dwelling is approximately 16 years old. The home features a full basement, central air conditioning, a fireplace and a two-car garage. The property has a 1,536 square foot site and is located in Tinley Park, Rich Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code as the subject and are located within approximately .25 of a mile from the subject property. The comparables are class 2-95 properties that are improved with two-story townhomes of frame and masonry exterior

construction containing 1,644 or 1,699 square feet of living area. The dwellings are from 24 to 26 years old. The comparables each have a full basement, a fireplace and a two-car garage. The comparables have improvement assessments that range from \$10,993 to \$11,814 or from \$6.69 to \$7.19 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$10,997 or \$6.86 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,083. The subject property has an improvement assessment of \$16,394 or \$10.23 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code as the subject property and are located approximately .25 of a mile from the subject property. The comparables are class 2-95 properties that are improved with two-story townhomes of frame and masonry exterior construction each containing 1,710 square feet of living area. The dwellings are each 22 years old and have a full basement, central air conditioning and a two-car garage. The comparables have improvement assessments of \$17,504 and \$17,593 or \$10.24 and \$10.29 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables which lack central air conditioning, a feature of the subject.

The Board finds the best evidence of assessment equity to be the four comparables submitted by the board of review, which have central air conditioning, like the subject and are similar to the subject in location, dwelling size, design, age and some features. These four comparables have improvement assessments of \$17,504 and \$17,593 or \$10.24 and \$10.29 per square foot of living area. The subject's improvement assessment of \$16,394 or \$10.23 per square foot of living area is less than the assessments of the four best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
