

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Jackson
DOCKET NO.: 21-48820.001-R-1
PARCEL NO.: 31-36-405-014-0000

The parties of record before the Property Tax Appeal Board are Mark Jackson, the appellant, by attorney Andreas Mamalakis of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,593
IMPR.: \$3,274
TOTAL: \$5,867

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame and masonry exterior construction with 1,566 square feet of living area. The dwelling is approximately 69 years old. The home features a concrete slab foundation, central air conditioning, two fireplaces and a 1-car garage.¹ The property has a 7,979 square foot site and is located in Park Forest, Rich Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

¹ The parties differ as to whether the subject dwelling has central air conditioning and any fireplaces. The appellant disclosed the subject dwelling has central air conditioning and two fireplaces, whereas the board of review reported the subject has no central air conditioning and no fireplace and thus, the Board finds the subject is not likely being assessed for central air conditioning or the two fireplaces.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code as the subject property and are located from .34 to .79 of a mile from the subject. The comparables are class 2-03 properties that are improved with one-story dwellings of frame and masonry exterior construction ranging in size from 1,356 to 1,698 square feet of living area. The dwellings are from 60 to 70 years old. The comparables each have a concrete slab foundation and one or two fireplaces. Two comparables have central air conditioning and four comparables each have a 1-car or a 2-car garage. The comparables have improvement assessments that range from \$2,019 to \$2,814 or from \$1.27 to \$1.66 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$2,224 or \$1.42 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$5,867. The subject property has an improvement assessment of \$3,274 or \$2.09 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code as the subject property and are located within the same block and street as the subject or approximately ¼ of a mile from the subject property. The comparables are class 2-03 properties that are improved with one-story dwellings of frame and masonry exterior construction ranging in size from 1,391 to 1,557 square feet of living area. The dwellings are from 66 to 69 years old. Each comparable has a concrete slab foundation, two comparables have central air conditioning, one comparable has a fireplace and three comparables each have either a 1-car or a 1.5-car garage. The comparables have improvement assessments ranging from \$4,034 to \$6,786 or from \$2.72 to \$4.88 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparable #4, as well as board of review comparable #2 due to their smaller dwelling size when compared to the subject.

The Board finds the appellant's comparables #1, #2, #3 and #5, along with board of review comparables #1, #3 and #4 are overall more similar to the subject in dwelling size, design and age. These seven comparables have varying degrees of similarity when compared to the subject

in features such as central air conditioning, fireplace count and garage capacity, if any, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments that range from \$2,019 to \$4,920 or from \$1.27 to \$3.13 per square foot of living area. Most weight was given to the three board of review comparables, which are located either within the same block and along the same street as the subject or approximately .25 of a mile from the subject property and have improvement assessments ranging from \$4,034 to \$4,920 or from \$2.72 to \$3.13 per square foot of living area. The subject's improvement assessment of \$3,274 or \$2.09 per square foot of living area falls within the range established by the best comparables in the record and is less than the three board of review comparables that are most similar to the subject in location. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
