

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ka Siu Chan  
DOCKET NO.: 21-48840.001-R-1  
PARCEL NO.: 17-28-320-034-0000

The parties of record before the Property Tax Appeal Board are Ka Siu Chan, the appellant, by Mary Kate Gorman, Attorney at Law, in Tinley Park, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$13,640  
**IMPR.:** \$47,362  
**TOTAL:** \$61,002

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 2,392 square feet of living area. The dwelling is approximately 7 years old. Features of the home include a full basement, 3½ bathrooms, central air conditioning, and a two-car garage. The property has a 3,100 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of the inequity argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject and from .32 to .68 of a mile from the subject. The comparables consist of class 2-78 dwellings of masonry exterior construction and which are 34 to 38 years old. The comparables range in size from 2,400 to 2,496 square feet of living area. Each comparable has a full or partial basement, and 2 or 2½

bathrooms. Two comparables have central air conditioning, and two comparable have a one-car and a two-car garage, respectively. The comparables have improvement assessments ranging from \$30,000 to \$35,257 or from \$12.28 to \$14.13 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$31,024 or \$12.97 per square foot of living area reflecting the average of the comparables presented.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$61,002. The subject property has an improvement assessment of \$47,362 or \$21.47 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and ¼ of a mile from the subject. The comparables consist of class 2-78 two-story dwellings of masonry exterior construction that are 3 to 22 years old. The homes range in size from 2,260 to 2,479 square feet of living area. Each comparable has a full basement, 3½ or 4½ bathrooms, central air conditioning, and a two-car garage. The comparables have improvement assessments ranging from \$47,250 to \$57,240 or from \$21.27 to \$23.09 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is now warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables along with board of review comparable #1, due the substantially older ages of these dwellings when compared to the subject that is 7 years old.

The Board finds the best evidence of assessment equity in the record to be board of review comparables #2, #3 and #4, which are each relatively similar to the subject in location, age, dwelling size and features. Two comparables are newer than the subject suggesting downward adjustments for age and one is older than the subject suggesting upward adjustment when compared to the subject. One comparable has a higher bathroom count than the subject indicating an adjustment for this difference. These three best comparables have improvement assessments ranging from \$47,250 to \$57,240 or from \$20.72 to \$23.09 per square foot of living area. The subject's improvement assessment of \$47,362 or \$19.80 per square foot of living area is within the range of the best comparables in this record in terms of overall improvement assessment and below the range on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables in the record for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
