

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dawn Desecki  
DOCKET NO.: 21-50493.001-R-1  
PARCEL NO.: 13-03-129-058-0000

The parties of record before the Property Tax Appeal Board are Dawn Desecki, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$12,555  
**IMPR.:** \$46,445  
**TOTAL:** \$59,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 1,952 square feet of living area. The dwelling is approximately 69 years old. Features of the home include a full unfinished basement, 2½ bathrooms, a fireplace, and a one-car garage.<sup>1</sup> The property has a 5,580 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on six equity comparables located in the same neighborhood code as the subject. The comparables consist of

class 2-05 dwellings of masonry exterior construction that range in age from 66 to 80 years old. The homes range in size from 1,868 to 2,200 square feet of living area. Each comparable has a full or partial basement, 1 or 2 bathrooms, central air conditioning and from a one-car to a two-car garage. Four comparables each have one or two fireplaces. The comparables have improvement assessments ranging from \$23,908 to \$36,445 or from \$10.88 to \$18.98 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$31,252 or \$16.01 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$59,000. The subject property has an improvement assessment of \$46,445 or \$23.79 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located in the same neighborhood code as the subject and either in the same tax block or within ¼ of a mile from the subject. The comparables consist of class 2-05 two-story dwellings of masonry exterior construction that range in age from 68 to 83 years old. The homes range in size from 1,925 to 1,952 square feet of living area. Each comparable has a full basement with finished area. Features include from 1 to 2½ bathrooms, one or two fireplaces and a one-car garage. Two homes have central air conditioning. The comparables have improvement assessments ranging from \$46,050 to \$49,327 or from \$23.92 to \$25.27 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparables #1 and #2, due to different dwelling sizes that are each approximately 13% larger when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be appellant's comparables #3 through #6 as well as the board of review comparables, which are most similar to the subject in location, design, exterior construction, dwelling size and/or some features. Adjustments to the comparables are necessary for differences in age, air conditioning amenity, bathroom count and/or garage capacity. These comparables have improvement assessments ranging from

\$35,458 to \$49,327 or from \$17.64 to \$25.27 per square foot of living area. The subject's improvement assessment of \$46,445 or \$23.79 per square foot of living area falls within the range established by the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject property, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
