

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Christopher Hennick-Jaffe  
DOCKET NO.: 21-50516.001-R-1  
PARCEL NO.: 13-14-301-033-0000

The parties of record before the Property Tax Appeal Board are Christopher Hennick-Jaffe, the appellant, by attorney Abby L. Strauss of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$20,310  
**IMPR.:** \$19,690  
**TOTAL:** \$40,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story multi-family building of masonry exterior construction with 2,302 square feet of building area. The building is approximately 99 years old. Features of the building include a full unfinished basement, two bathrooms, two fireplaces and a 1.5-car garage. The property has a 4,062 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on eight equity comparables that have the same assessment neighborhood code as the subject. The comparables are class 2-11 properties that are improved with multi-family buildings of frame or stucco exterior construction ranging in size from 2,477 to 2,635 square feet of building area. The buildings are from 114 to 124 years old.

Five comparables each have a full or partial basement and three comparables each have a concrete slab foundation. No data was provided by the appellant concerning finished basement area. Each comparable has three bathrooms and seven comparables each have a 2-car garage. The comparables have improvement assessments that range from \$12,695 to \$19,250 or from \$4.82 to \$7.73 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$15,354 or \$6.67 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,000. The subject property has an improvement assessment of \$19,690 or \$8.55 per square foot of building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located approximately .25 of a mile from the subject property, where one comparable is also on the same street as the subject. The comparables are class 2-11 properties that are improved with two-story multi-family buildings of masonry exterior construction ranging in size from 2,424 to 2,568 square feet of building area. The buildings are 108 or 118 years old. The comparables each have a full basement, one of which has finished area. Comparable #2 has central air conditioning. Each comparable has two bathrooms and either a 1.5-car or a 2-car garage. The comparables have improvement assessments that range from \$27,949 to \$30,375 or from \$11.53 to \$11.83 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted twelve comparable properties for the Board's consideration. The Board has given less weight to the appellant's eight comparables, as well as board of review comparable #2 due to their older building ages when compared to the subject and/or they have a dissimilar concrete slab foundation when compared to the subject's basement foundation.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #3 and #4, which have basement foundations, like the subject and are overall more similar to the subject in location, building size, age and some features. However, the Board finds each comparable has no fireplace, whereas the subject has two fireplaces, suggesting upward adjustments would be required to make the comparables more equivalent to the subject. Conversely, board of review comparable #4 has basement finish, unlike the subject, suggesting a downward adjustment for this feature would be required to make this comparable more

equivalent to the subject. Nevertheless, these three comparables have improvement assessments ranging from \$27,949 to \$30,375 or from \$11.53 to \$11.83 per square foot of building area. The subject's improvement assessment of \$19,690 or \$8.55 per square foot of building area falls below the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
