

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marlys Fox Barba
DOCKET NO.: 21-50568.001-R-1
PARCEL NO.: 14-33-124-046-0000

The parties of record before the Property Tax Appeal Board are Marlys Fox Barba, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,775
IMPR.: \$49,225
TOTAL: \$64,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 1,238 square feet of living area. The dwelling is approximately 53 years old. The home features a basement with finished area, 2½ bathrooms, central air conditioning and a 1-car garage. The property has a 1,182 square foot site and is located in Chicago, North Chicago, Cook County. The subject is classified as a class 2-95 townhome or row house property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on nine comparables that are located within the same assessment neighborhood code as the subject. The comparables consist of class 2-95 dwellings of masonry exterior construction with 1,161 or 1,386 square feet of living area. The dwellings are 47 to 52 years old. The dwellings have concrete slab

foundations, 1 or 2 full bathrooms, and a fireplace. Five comparables each have central air conditioning. The comparables have improvement assessments that range from \$26,178 to \$34,350 or from \$22.55 to \$24.78 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$29,774 or \$24.05 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$64,000. The subject property has an improvement assessment of \$49,225 or \$39.76 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that are located within the same assessment neighborhood code as the subject. One comparable is located on the same block and street as the subject, and three comparables are located within ¼ of a mile of the subject. The comparables consist of class 2-95, 2-story dwellings of masonry exterior construction with 1,238 or 1,254 square feet of living area. The dwellings have basements with finished area, 2½ bathrooms, and central air conditioning. One comparable has a 1-car garage. The comparables have improvement assessments that range from \$49,625 to \$55,500 or from \$40.08 to \$44.26 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted thirteen equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables which are less similar to the subject in dwelling size, foundation type, and/or other features than the board of review comparables.

The Board finds the best evidence of assessment equity to be the board of review comparables which are overall more similar to the subject in location, design, age, dwelling size, and other features, except three comparables lack a garage, a feature of the subject. These four comparables have improvement assessments ranging from \$49,625 to \$55,500 or from \$40.08 to \$44.26 per square foot of living area. The subject's improvement assessment of \$49,225 or \$39.76 per square foot of living area falls below the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
