

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sherwood Haynes
DOCKET NO.: 21-51071.001-R-1
PARCEL NO.: 13-13-111-005-0000

The parties of record before the Property Tax Appeal Board are Sherwood Haynes, the appellant, by Ciarra J. Schmidt, attorney-at-law of Schmidt Salzman & Moran, Ltd. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,000
IMPR.: \$65,485
TOTAL: \$74,485

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of masonry exterior construction containing 1,884 square feet of living area. The dwelling is approximately 106 years old. Features of the property include a full unfinished basement,¹ two bathrooms, and a 1-car garage. The property has a 3,750 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables composed of class 2-05 properties improved with two-story dwellings of frame,

masonry or frame and masonry exterior construction that range in size from 1,716 to 2,064 square feet of living area. The dwellings range in age from 98 to 110 years old. Each comparable has a full basement finished with either a recreation room or an apartment, and 1½ or 2 bathrooms. Two comparables have a full attic finished with an apartment, and three comparables have a 2-car, 2.5-car or 3-car garage.² These properties have the same assessment neighborhood code as the subject property. Their improvement assessments range from \$51,480 to \$61,360 or from \$29.51 to \$30.79 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$56,520.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$74,485. The subject property has an improvement assessment of \$65,485 or \$34.76 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables composed of class 2-05 properties improved with two-story dwellings of masonry exterior construction that range in size from 1,840 to 2,006 square feet of living area. The comparables range in age from 94 to 105 years old. Each comparable has a full basement with one being finished with a formal recreation room, 1½ or 2 bathrooms, and a 1-car or a 2-car garage. The comparables have the same assessment neighborhood code as the subject and are located approximately ¼ of a mile from the subject property. These properties have improvement assessments ranging from \$66,000 to \$73,360 or from \$35.19 to \$36.72 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine equity comparables similar to the subject in location, size, style, and age to support their respective positions. The Board gives less weight to appellant's comparables #2, #3, and #5 due to differences from the subject in exterior construction and the fact that comparables #2 and #5 do not have a garage, unlike the subject property. The Board finds the best evidence of assessment equity to be appellant's comparables #1 and #3 as well as the board of review comparables that are improved with two-story dwellings of masonry exterior construction that range in size from 1,716 to 2,026 square feet of living area and in age from 94 to 109 years old. These comparables have improvement assessments that range from \$51,480 to \$73,360 or from \$29.51 to \$36.72 per square foot of living area. The subject's improvement assessment of \$65,485 or \$34.76 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's

improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
