

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michelle Alipoyo
DOCKET NO.: 21-51128.001-R-1
PARCEL NO.: 10-20-429-021-0000

The parties of record before the Property Tax Appeal Board are Michelle Alipoyo, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,572
IMPR.: \$21,284
TOTAL: \$25,856

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry exterior construction with 1,276 square feet of living area. The dwelling is approximately 54 years old. Features of the home include a partial basement with finished area, central air conditioning, and a 2.5-car garage. The property has a 5,715 square foot site and is located in Morton Grove, Niles Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with the same assessment neighborhood code as the subject. The comparables consist of class 2-34 multi-level dwellings of masonry or frame and masonry exterior construction ranging in size from 1,200 to 1,384 square feet of living area. The

dwelling are 53 to 62 years old. According to the property characteristics printouts, the comparables each have a full unfinished basement. Four comparables each have central air conditioning, one comparable has one fireplace, and four comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$4,420 to \$5,311 or from \$3.22 to \$4.06 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$25,856. The subject property has an improvement assessment of \$21,284 or \$16.68 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject and are located in the subject's same block or ¼ of a mile from the subject. The comparables consist of class 2-34 multi-level dwellings of frame and masonry exterior construction ranging in size from 1,249 to 1,560 square feet of living area. The homes are 53 to 59 years old. Each comparable has a partial basement with finished area, central air conditioning, and a 2-car garage. The comparables have improvement assessments ranging from \$20,354 to \$23,552 or from \$14.49 to \$18.66 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and the board of review comparable #4 which are less similar to the subject in dwelling size or lack a basement finish, unlike the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables #1, #2 and #3. These comparables are overall more similar to the subject in location, age, dwelling size, and other features. These three comparables have assessments ranging from \$20,354 to \$23,552 or from \$15.95 to \$18.66 per square foot of living area. The subject's improvement assessment of \$21,284 or \$16.68 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
