

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Robert Meyer
DOCKET NO.: 21-53104.001-R-1
PARCEL NO.: 18-09-220-014-0000

The parties of record before the Property Tax Appeal Board are Robert Meyer, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$4,187
IMPR.:	\$17,300
TOTAL:	\$21,487

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,663 square feet of living area. The dwelling is approximately 64 years old. Features of the home include a crawl space foundation, central air conditioning, a fireplace and a 2-car garage. The property has a 6,700 square foot site and is located in La Grange, Lyons Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables located within the subject's assessment neighborhood and within 0.33 of a mile from the subject. The comparables consist of class 2-03, 1-story dwellings of masonry exterior construction ranging in size from 1,384 to 1,764 square feet of living area. The homes are 61 to 68 years old.

One comparable has a full basement, and four comparables each have a crawl space or a slab foundation. Each comparable has 1 or 2 fireplaces and either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$12,138 to \$16,344 or from \$8.77 to \$10.70 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$25,374. The subject property has an improvement assessment of \$21,187 or \$12.74 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four comparables located within the subject's assessment neighborhood and within the subject's block or approximately ¼ of a mile of the subject. The comparables consist of class 2-03, 1-story dwellings of masonry exterior construction ranging in size from 1,382 to 1,567 square feet of living area. The homes are 61 to 65 years old. Each comparable has a partial or a full basement and either a 1-car or a 2-car garage. Three comparables each have central air conditioning, and two comparables have 1 or 2 fireplaces. The comparables have improvement assessments ranging from \$18,871 to \$21,494 or from \$13.59 to \$14.32 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #1 and the board of review's comparables which have basement foundations, unlike the crawl space foundation of the subject dwelling.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2, #3, #4 and #5. These comparables are relatively similar to the subject in location, design, dwelling size, age, location and foundation type but require adjustments for fewer number of bathrooms, lack of central air conditioning and other features. These four comparables have improvement assessments ranging from \$15,691 to \$16,344 or from \$9.27 to \$10.70 per square foot of living area. The subject's improvement assessment of \$21,187 or \$12.74 per square foot of living area falls above the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
