

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Terry Simmons
DOCKET NO.: 21-53505.001-R-1
PARCEL NO.: 19-29-306-027-0000

The parties of record before the Property Tax Appeal Board are Terry Simmons, the appellant, by attorney John J. Piegore, of Sanchez, Daniels & Hoffman LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,044
IMPR.: \$13,994
TOTAL: \$17,038

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of masonry exterior construction with 1,032 square feet of living area. The home is 58 years old. Features include a partial basement with finished area, 1 bathroom, and a 2-car garage. The property has a 3,690 square foot site and is located in Burbank, Stickney Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables that have the same assessment neighborhood code as the subject property. The comparables consist of class 2-34 multi-level dwellings of masonry exterior construction ranging in size from 990 or 1,314 square feet of living area. The homes are either 59 or 60 years old. Each home has a partial basement, but no data was provided if the basements have finished area. Each home has

1 or 1.5 bathrooms, and either a 1-car or a 2-car garage. One comparable has central air conditioning and a fireplace. The comparables have improvement assessments ranging from \$10,793 to \$13,729 or from \$10.26 to \$11.05 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$11,032.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$17,038. The subject property has an improvement assessment of \$13,994 or \$13.56 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four comparables that are located in the same assessment neighborhood code, the same block, and the same street as the subject. The comparables consist of class 2-34 multi-level dwellings of masonry exterior construction with 1,032 square feet of living area. The homes are 60 or 61 years old. Each home has a partial basement, three of which have finished area, 1 bathroom, and a 2-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$14,012 to \$14,602 or from \$13.58 to \$14.15 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are less similar to the subject in dwelling size, bathroom count and/or other features than the board of review comparables.

The Board finds the best evidence of assessment equity to be the board of review comparables that are located in the same assessment neighborhood code, block and street as the subject and are also identical or relatively identical to the subject in age, dwelling size, bathroom count, and most features. However, two comparables either lack a basement finish or have a central air conditioning amenity, unlike the subject. The four comparables have improvement assessments of \$14,012 to \$14,602 or from \$13.58 to \$14.15 per square foot of living area, respectively. The subject's improvement assessment of \$13,994 or \$13.56 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
