

# FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Frank Peard

DOCKET NO.: 21-55052.001-R-1 PARCEL NO.: 15-32-303-011-0000

The parties of record before the Property Tax Appeal Board are Frank Peard, the appellant(s), by attorney Joseph G. Kusper, of Kusper Law Group, LLC in Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds <u>A Reduction</u> in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$7,313 **IMPR.:** \$49,000 **TOTAL:** \$56,313

Subject only to the State multiplier as applicable.

#### **Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

#### **Findings of Fact**

The subject property is an approximately 45-year-old, two-story single-family dwelling of frame and masonry construction containing 2,168 square feet of living area<sup>1</sup>. Features of the home include a partial finished basement with a formal recreation room, central air conditioning, a fireplace and a two-car garage. The property has an 8,125 square foot site located in Western Springs, Proviso Township, Cook County. The appellant disclosed that the subject was owner occupied in the lien year of this appeal. The subject is a Class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

<sup>&</sup>lt;sup>1</sup> Appellant provided a detailed floor plan from a previous appraisal of the property which detailed that the building contains a total of 2,168 square feet of living area. The board of review did not refute this evidence. The Board finds that the subject has a total 2,168 square feet of living area not 2,580 as asserted by the board of review.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five suggested equity comparable properties with varying similarities to the subject. Appellant reports that the submitted comparable properties are class 2-178 properties that are located within "several blocks" from the subject.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$62,887. The subject property has an improvement assessment of \$55,575 or \$25.63² per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparable properties with varying degrees of similarities to the subject. All the submitted properties were two-story class 2-78 properties that are located either within a block or a ¼-mile radius of the subject.

Prior to a scheduled August 28, 2025, hearing before a PTAB Administrative Law Judge the parties entered into a written agreement to waive hearing and have a decision rendered based on the previously submitted evidence.

#### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of assessment equity to be comparable properties #1 and #2 submitted by the board of review and comparable properties #1 and #3 submitted by the appellant. These comparable properties were most similar to the subject in size, age, design and location, and had improvement assessments that ranged from \$20.63 to \$24.90 per square foot of living area. The subject's improvement assessment of \$25.63 per square foot of living area falls above the range established by the best comparable properties in this record. The Board finds that the appellant demonstrated with clear and convincing evidence that the subject's improvement was in equitably assessed and, therefore, a reduction in the subject's assessment is justified.
