

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Edward Erickson
DOCKET NO.: 21-56315.001-R-1
PARCEL NO.: 13-22-405-010-0000

The parties of record before the Property Tax Appeal Board are Edward Erickson, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,000
IMPR.: \$30,711
TOTAL: \$44,711

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame construction with 1,384 square feet of living area which is approximately 110 years old. Features of the home include 2½ bathrooms, a full unfinished basement, central air conditioning, and a 2-car garage. The property has a 4,000 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property¹ under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located from .12 to .28 of a mile from the subject and within the same assessment neighborhood code as the subject property. The comparables consist of 1-story or 1.5-story

¹ One-story residence, any age, with 1,000 to 1,800 square feet of living area.

dwelling of frame construction ranging in size from 1,276 to 1,449 square feet of living area and ranging in age from 109 to 114 years old. Each comparable features a full basement, one of which is finished with a formal recreation room; one comparable has central air conditioning; and each comparable has a 1-car or a 2-car garage. The comparables have improvement assessments that range from \$19,600 to \$22,450 or from \$14.60 to \$15.49 per square foot of living area. The appellant also submitted a brief requesting a reduction to the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$44,711. The subject property has an improvement assessment of \$30,711 or \$22.19 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within ¼ of a mile or the same block from the subject and within the same assessment neighborhood code as the subject property. The comparables consist of 1.5-story class 2-03 dwellings of frame, masonry, or frame and masonry construction ranging in size from 1,381 to 1,571 square feet of living area and ranging in age from 103 to 110 years old. Each comparable features one or two full baths with three homes each having an additional ½ bath; each comparable has a full basement, three finished with formal recreation room; each dwelling also has central air conditioning; and three comparables have a 1-car, a 1.5-car, or a 2-car garage. The comparables have improvement assessments that range from \$32,500 to \$40,346 or from \$22.26 to \$27.81 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables for the Board's consideration. The Board gave less weight to appellant's comparable #4 based on its 1-story design, dissimilar to the subject's 1.5-story dwelling. The Board also gave less weight to board of review comparable #3 due to lack of a garage, a feature of the subject property. The Board finds that the remaining comparables are similar to the subject in location, design, age, dwelling size, and some features. However, appellant's comparables #1, #2, and #3 each lack central air conditioning which is a feature of the subject dwelling, and board of review comparables #1, #2, and #4 each have finished basement area that the subject lacks. These differences necessitate upward and downward adjustments, respectively, in order to make the comparables more equivalent to the subject. The best comparables in the record have improvement assessments ranging from \$19,600 to \$40,346 or from \$14.60 to \$27.81 per square foot of living area. The subject's improvement assessment of \$30,711 or \$22.19 per square foot of living area falls within the range established by the best comparables in this record both in terms of overall improvement assessment and on a per square foot of living area basis.

After considering adjustments to the best comparables for differences from the subject, such as central air conditioning and basement finish, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and, therefore, a reduction in the subject's improvement is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
